Overall in this college are very good..and I'm satisfied with that...all Teaching staff are excellent in their work..

Increase visuality with example.
And animation and audiology.

N

It's always very good

1. Teachers should use practical based teaching.
2. During teaching, teachers should clarify the base of the particular topic.
3. They should use simple language while explaining to make understand the students easily.

- 1 . Teacher staff should moralise student rather than demoralise them on the basis of the which group or faculty they belong .. so every student can learn with same confidence.
- 2 . Treating every student can bring the confidence in them and they feel comfortable with teachers and college environment ..and can study better..
- 3 . Activities..camps or programs organised by college are for togetherness to bring students together ..and students must do all works or activity related to particular program or camp or activity with the same intensity and dedication .. so stop telling students that .. this work related to this group or faculty so they will do it..it's every students responsibility to do it

.

There is no need to improve anything

Excellent

Our institute Provide us all the types of way to learning which understand us easily so ,no need of my suggestions for them to improve their skills.

Everything is good

Very good teaching

Give carrier guidance about particular subject

Good teaching teaching staff exlant

Use the better graphics media and engage students

Need more teachers to teach while practicals sessions

while teaching and explaining the programs teachers should teach it by using the projectors available in the class room and run those programs in front of us so it will be easy to understand the program and the concept behind it.

It's good already

Good Teacher faculty.

It's always very good

1. Teachers should use practical based teaching.
2. During teaching, teachers should clarify the base of the particular topic.
3. They should use simple language while explaining to make understand the students easily.

Every student has gone through the stage of losing interest during the lecture.
We should understand that student engagement is important for better learning outcomes.
Try to reach every student and ask for their doubts.
Regular classes should be held

Best teaching

Excellent learning experience in my college

-

- 1) Inculcation of PowerBoards/Seminars more effectively in the teaching process.
- 2) Over burdening students just with assignments wherein they are just supposed to write or answer the question must be avoided this promotes the rote learning it could be substituted with Seminars which students can present.
- 3) Special focus should also be laid upon the development of soft skills of students and more interactive approach towards the teaching should be appreciated or encouraged.

Best experience

Not teaching good

Gawande sir and Korde mam give special attention towards students and their lectures remaining all teachers are very helpful.
College should give some more attention towards extra curricular activities especially sports

As per my opinion there is no need to give any suggestions to improvement in the teaching because All teachers are doing great

Insufficient computer

Yes

The teaching is very good.

Overall good experience

Need improvement in practical labs

Very good teaching

Madams don't talk with student in good way

I think all the things are well being related to learning

Excellent experience to understand the particular syllabus as well....

Please explain the program
And practice will

No Suggestions

All the things are well being related to learning

Change all subjects teachers

1) Curriculum should be revised as per industry requirements

2) Programming contests can be arranged

3) Regular tests should be conducted

None

Nothing to suggest

No,

Increase the college system like printer and computer in computer lab and make big library for students

Nice teaching in my shri shivaji college amravati

Nothing

Need to increase the number of printers

Infrastructure should be improved and some faculties also need to get better

Very good

Honest
Well Understanding
Humble
