

Attention UG/PG/PhD Students

Visionary Ventures:

Unleashing Entrepreneurial Brilliance

Are you ready to transform your innovative business ideas into reality?

We present an exciting platform for the brightest entrepreneurial minds among our UG and PG students.

Organized by the

Start Up & Entrepreneurship Development Cell; Career Katta; and Student Development Cell

Shri Shivaji Education Society, Amravati's

Shri Shivaji Science College, Amravati

NAAC: A+ Grade; **UGC:** CPE, DBT: STAR College (Strengthening Component);

NIRF(2021 & 2022): Rankband 151-200; **ISO:** 9001-2015; **DST:** FIST;

SGBAU: Lead College; **Career Katta:** Centre of Excellence

What's in Store for You?

- **Seed Funding of 1.0 Lakh** to be awarded across the top business ideas.
- A chance to showcase your idea at the **Idea Pitching Session**
- An insightful **Entrepreneurial Workshop** to sharpen your business skills.

KEY DETAILS:

- Last Date of Registration:
15th December 2023
- Idea Pitching Session:
16th December 2023 at 12.00 Noon
- Seed Funding Award and Workshop:
19th December 2023 at 12.00 Noon
- **Venue:** Sir C.V. Raman Auditorium,
Shri Shivaji Science College, Amravati.

Registration Link: <https://tinyurl.com/visionary-ventures>

What to Do: 1 **Find** innovative, Viable and Earning Business idea; 2 **Prepare** a Team;
3 **Formulate** Pitch Deck (ppt) including points like Mission, Problem, Solution, Product/Service
Market Analysis, Fund Flow, Team, etc.; 4 **Present** Idea and 5 **Demand** Support;

Register now and step into the world of visionary entrepreneurship!

VISIONARY VENTURES

Unleashing Entrepreneurial Brilliance

Organized by

Start Up and Entrepreneurship Development Cell, Career Katta and

Student Development Cell

Shri Shivaji Education Society, Amravati's

Shri Shivaji Science College, Amravati

Introduction and Background of the Activity

In the rapidly transforming global economy, entrepreneurship has emerged as one of the strongest forces driving innovation, employment generation and national development. Modern education is no longer limited to the acquisition of theoretical knowledge but is expected to create individuals capable of applying knowledge for solving real-life problems and generating sustainable economic opportunities.

The National Education Policy (NEP-2020) has highlighted the importance of skill-based education, creativity, innovation and entrepreneurial mindset among students. The future demands young graduates who can identify opportunities, develop innovative solutions and create enterprises contributing towards economic growth.

Understanding this changing educational landscape, Shri Shivaji Science College, Amravati has taken several initiatives to develop an entrepreneurship-driven academic ecosystem. Inspired by the vision of the founder of Shri Shivaji Education Society, **Shikshan Maharshi and Krishiratna Dr. Panjabrao alias Bhausaheb Deshmukh**, and on the occasion of his **125th Birth Anniversary Celebration Year**, the college initiated activities focused on empowering youth through innovation and self-reliance.

With this objective, the **Start Up and Entrepreneurship Development Cell, Career Katta and Student Development Cell** jointly organized a one-day entrepreneurship development initiative titled: **“Visionary Ventures: Unleashing Entrepreneurial Brilliance”**

The activity aimed at motivating students to dream beyond conventional employment opportunities and guiding them towards the creation of their own business ventures.

Concept and Vision Behind Visionary Ventures

Many young students possess innovative ideas and creative solutions, but these ideas often remain unrealized because students lack exposure to entrepreneurship, business planning, financial understanding and institutional support.

The Visionary Ventures programme was designed to bridge this gap by creating a structured platform where students could transform their ideas into realistic business proposals.

The initiative encouraged students to identify innovative, viable and earning-oriented business ideas. Students were guided to develop a team, prepare a professional pitch deck and present their business proposal covering important components such as mission, problem identification, proposed solution, product or service details, market analysis, financial planning and implementation strategy.

The philosophy behind the programme was that education should not only prepare students for available jobs but should also empower them to create new opportunities.

Through this initiative, the college attempted to establish the pathway:

Idea → Innovation → Business Planning → Pitching → Mentoring → Seed Funding → Startup Development

Innovative Business Idea Pitching Competition

As the first phase of the activity, an **Innovative Business Idea Pitching Competition** was organized on **18th December 2023**.

The competition provided a platform for students to present their entrepreneurial ideas before expert evaluators.

Students were encouraged to think like real entrepreneurs by identifying problems around them and proposing innovative solutions with commercial possibilities.

The evaluation process was designed according to professional startup assessment standards. The submitted ideas were evaluated on different entrepreneurial parameters including originality of innovation, market potential, business model strategy, feasibility, technical viability and presentation effectiveness.

The competition witnessed several creative business concepts such as:

Staying House for Pets, Book Our Venue, Eco-friendly Self-watering Tree Guard System, Event Management Services, Social Media Advertising, Mental Health Gym, Herbal Handwash Preparation, Antimicrobial Activity Testing Laboratory and other innovative ideas.

The jury panel included experienced professionals **Mr. Ashwin Bhosale**, Founder, Winspage Envoy OPC Pvt. Ltd. and **Ms. Pooja Gandhi**, Core Project Engineers and Consultant Pvt. Ltd. The expert evaluation provided students with practical exposure to real-world startup pitching.

Entrepreneurship Development Workshop

After identification of innovative ideas through the pitching competition, a full-day Entrepreneurship Development Workshop was organized on: **19th December 2023**
Time: 11.00 AM to 5.00 PM at **Sir C. V. Raman Auditorium, Shri Shivaji Science College, Amravati**

The workshop was designed to strengthen entrepreneurial capabilities among students and provide them guidance regarding establishment of successful ventures.

The programme focused on creating awareness about entrepreneurship opportunities, developing business confidence and introducing students to government schemes and support systems available for young entrepreneurs.

Maharashtra Student Innovation Challenge District Level Felicitation, Entrepreneurship Award & Seed Fund Distribution Ceremony and Workshop

As a significant extension of the *Visionary Ventures: Unleashing Entrepreneurial Brilliance* initiative, a comprehensive programme comprising the **Maharashtra Student Innovation Challenge District Level Felicitation, Entrepreneurship Award and Seed Fund Distribution Ceremony along with Entrepreneurship Development Workshop** was organized on **19th December 2023** at Sir C. V. Raman Auditorium, Shri Shivaji Science College, Amravati. The programme was designed to bring together innovators, entrepreneurs, government agencies and academic institutions on a common platform to strengthen the student startup ecosystem.

The first session of the programme was dedicated to providing practical exposure to students regarding innovation support systems and the transformation of creative concepts into successful enterprises. **Mr. Amit Hirulkar, CEO, Incubation Centre, Amravati**, delivered an informative session on “**Incubation Centre**”, where he explained the importance of incubation facilities in nurturing early-stage startups. He elaborated on how young entrepreneurs can utilize incubation support for product development, mentoring, networking, business validation and growth acceleration.

This was followed by an expert session on “**Sankalpna te Udyog (Concept to Enterprise)**” delivered by **Mr. Amit Arokar, Director, ECE (India) Energies Pvt. Ltd., Amravati**. He guided students about the entrepreneurial journey from identification of innovative ideas to establishing sustainable business ventures. Through practical examples, he explained the importance of opportunity recognition, market understanding, strategic planning, perseverance and execution skills required to convert ideas into successful enterprises.

The formal inauguration and award distribution ceremony was conducted in the gracious presence of distinguished dignitaries. The programme was presided over by **Hon. Shri Dilipbabu Ingole, Treasurer, Shri Shivaji Education Society, Amravati**, while **Hon. Shri Saurabh Katiyar, District Collector, Amravati**, graced the occasion as the chief guest. **Mrs. Pranjali Baraskar, Assistant Commissioner, District Skill Development, Employment and Entrepreneurship Guidance Centre, Amravati**, provided detailed guidance regarding the **Maharashtra Student Innovation Challenge**, various government initiatives, and opportunities available for budding entrepreneurs.

During the ceremony, **Dr. D. D. Khedkar, Coordinator, Start Up and Entrepreneurship Development Cell, Shri Shivaji Science College, Amravati**, presented the objectives, journey and achievements of the entrepreneurship development initiative undertaken by the college. **Dr. G. V. Korpe, Principal, Shri Shivaji Science College, Amravati**, in his welcome address highlighted the institution's commitment towards developing an innovation-based academic culture and encouraging students to become employment creators. **Dr. B. S. Barade, IQAC Coordinator**, proposed the vote of thanks and acknowledged the contribution of all stakeholders in strengthening the entrepreneurial ecosystem.

Expert Guidance Sessions

The afternoon workshop session further enriched students through interaction with successful professionals and industry experts. **Mr. Kiran Paturkar, President, MIDC Association, Amravati**, delivered a session on **Entrepreneurial Capacity Development**, emphasizing industrial expectations, leadership qualities and opportunities for young entrepreneurs. **Mr. Pradeep Ingale, Divisional Coordinator, Maharashtra Entrepreneurship Development Centre, Amravati**, guided students on the **qualities and personality traits of successful entrepreneurs**, focusing on confidence building, innovation mindset and business discipline. **Mr. Nilesh Nikam, General Manager, District Industries Centre, Amravati**, provided valuable information about various government schemes, financial assistance mechanisms and support systems available for startup development.

The programme successfully connected academic innovation with industrial expertise and government support mechanisms. It provided students with a complete understanding of the entrepreneurial journey from idea generation to incubation, funding and enterprise development. The activity proved to be an important milestone in strengthening the innovation ecosystem of Shri Shivaji Science College, Amravati and reflected the vision of creating self-reliant, innovative and socially responsible young entrepreneurs.

Award Distribution and Seed Funding Support

A significant feature of Visionary Ventures was that the programme was not restricted only to motivation and lectures. It created a practical support mechanism for students who demonstrated entrepreneurial potential.

Selected student entrepreneurs were provided institutional support for developing their ideas further.

The college announced support through:

- Start Up and Entrepreneurship Development Cell
- Career Katta Centre of Excellence

The initiative included financial assistance provision along with infrastructure and mentoring support.

The programme also hosted the district-level presentation of the “Maharashtra Student Innovation Challenge”, organized in collaboration with the Department of Skills, Employment, Entrepreneurship and Innovation, Government of Maharashtra. Selected innovative ideas from students across the district were presented during this platform, providing young innovators an opportunity to interact with experts and receive valuable suggestions.

Overall, the workshop successfully connected academic knowledge with entrepreneurship, government initiatives and industrial expertise. By providing guidance, mentorship, incubation support and actual seed funding, Shri Shivaji Science College, Amravati established a practical model for nurturing student entrepreneurs. The activity strengthened the vision of Startup India, Skill India, Atmanirbhar Bharat and NEP-2020 by empowering students to become innovators, entrepreneurs and future employment generators.

Selected Student Startup Ideas

As a part of the initiative, an Innovative Business Idea Competition was conducted by the Start Up and Entrepreneurship Development Cell, Student Development Cell and Career Katta. In this competition, 15 student teams presented their innovative business and startup concepts. The participating students identified commercially viable ideas, developed business models and presented their plans for establishing future enterprises. The competition encouraged students to think beyond traditional career paths and explore entrepreneurship as a meaningful career opportunity.

A remarkable feature of this programme was the direct financial support provided to promising student entrepreneurs. Shri Shivaji Science College, Amravati sanctioned ₹1 lakh through the Start Up and Entrepreneurship Development Cell, while an additional ₹1 lakh support was provided through Career Katta Centre of Excellence, creating a total seed funding support of ₹2 lakhs for student startups. Four selected innovative projects received ₹50,000 each as seed capital to initiate their entrepreneurial journey.

The idea “**Book Our Venue**” presented by **Vedanti Kishor Sonparote** was selected as one of the promising ventures. The concept focused on creating a platform-based solution for venue booking and management. Considering its practical application and market possibilities, the student received institutional startup support.

The innovative idea “**ECO Vital Analytics**” presented by **Sejal Pravin Ingale, Kanak Bhadange and Bhushan Arunrao Dhande** was recognized for its innovation-oriented approach and selected for further development.

The research-based enterprise idea “**Antimicrobial Activity Testing Laboratory**” presented by **Gayatri Nemane and Vishakha Thakare** represented the conversion of scientific expertise into a service-based startup model. This concept demonstrated how laboratory knowledge can generate entrepreneurial opportunities.

The project “**Aynna – An Automated Artificial Intelligence System**” presented by **Mr. Nachiket Shashikant Yawale** emerged as a promising technology-driven startup concept. The project represented the application of emerging Artificial Intelligence technologies for developing intelligent digital solutions capable of simplifying human tasks through automation and smart decision-making.

Institutional Incubation and Support Mechanism

Shri Shivaji Science College extended comprehensive support to selected student innovators.

The support was not limited to financial assistance but included the complete ecosystem required for startup development. Students were provided access to institutional infrastructure, laboratories, workspaces, advanced instrumentation facilities and technical expertise.

The college also assured continuous mentorship through experienced teachers, professionals and entrepreneurs who would guide students through the challenges of developing a successful business.

Organization and Team Effort

The successful execution of Visionary Ventures was possible due to systematic planning and teamwork. The programme was coordinated by **Dr. Dinesh Khedkar** Coordinator, Start Up and Entrepreneurship Development Cell and Student Development Cell under the guidance of **Dr. G. V. Korpe** Principal, Shri Shivaji Science College, Amravati

Different committees were formed for participant coordination, stage arrangement, guest management, documentation, result preparation and discipline management to ensure smooth organization of the activity.

Outcome and Impact of the Activity

Visionary Ventures successfully introduced students to the practical world of entrepreneurship. The programme transformed students from passive learners into active innovators capable of identifying opportunities and developing solutions.

The activity resulted in:

1. Development of entrepreneurial thinking among students.
2. Creation of innovative business ideas.
3. Exposure to professional startup pitching.
4. Industry interaction and expert mentoring.
5. Selection of promising ideas for incubation.
6. Financial and infrastructural support for student startups.

The initiative contributed directly towards the goals of **NEP-2020, Startup India, Skill India and Atmanirbhar Bharat Abhiyan** by encouraging students to become self-reliant innovators.

Conclusion

Visionary Ventures: Unleashing Entrepreneurial Brilliance represented a major step taken by Shri Shivaji Science College, Amravati towards creating a culture of innovation and entrepreneurship.

The activity demonstrated that educational institutions can play a transformational role by providing students not only knowledge but also opportunities, resources and confidence to create their own future.

By connecting creativity with mentorship, infrastructure and financial support, the college successfully established a pathway for converting student ideas into sustainable ventures.

The programme truly reflected the vision of developing a generation of **innovators, entrepreneurs and employment creators.**

Certificate

This is to certify that,

has successfully completed the One Day Workshop held on 19th December, 2023 during 11.00 am to 5.00 pm at Sir C V Raman Hall, Shri Shivaji Science College, Amravati. This workshop was designed to instill foundational entrepreneurial skills and inspire innovative thinking among graduates. We recognize and commend the effort and enthusiasm of the Participants, and believe that experience will serve as a valuable asset in their future endeavors.
