About Organizations

Shri Shivaji Science College, Amravati is one of the premier institutions of higher education in the Vidarbha region of Maharashtra. Established under the aegis of the Shri Shivaji Education Society, Amravati, the college has a long-standing legacy of excellence in science education, research, and holistic student development. Affiliated to Sant Gadge Baba Amravati University, the college is well known for its disciplined academic environment, qualified faculty, and strong emphasis on both theoretical and practical learning. Over the years, Shri Shivaji Science College has produced numerous scientists, academicians, researchers, and professionals who have made significant contributions at national and international levels.

Department of Chemistry

The Department of Chemistry at Shri Shivaji Science College, Amravati, is one of its most prominent and academically strong departments. It offers undergraduate and postgraduate programs with a well-structured curriculum aligned with university and national academic standards. The department is equipped with well-established laboratories, modern analytical instruments, and adequate infrastructure to support teaching, practical training, and research activities.

The faculty members are highly qualified and experienced, actively involved in research, publications, student mentoring, and academic development. The department places strong emphasis on hands-on laboratory skills, analytical techniques, and fundamental chemical sciences, preparing students for careers in research, industry, pharmaceuticals, education, and competitive examinations. Regular seminars, workshops, industrial visits, and student projects further enhance academic exposure and practical competence.

Overall, the Department of Chemistry plays a vital role in upholding the academic reputation of Shri Shivaji Science College and contributes significantly to the development of skilled and knowledgeable chemistry graduates.

Allmpus Laboratories Pvt. Ltd.

At Allmpus we are doing contract research and providing R&D products to various pharmaceutical companies. We are guided at all times by the promise of caring for our customers' research and development. To achieve this objective, we have invested in a research laboratory, continuous learning and technology to develop high quality research and affordable pharmaceuticals products for business & healthcare needs.

With a belief that knowledge is power, we connect directly with patients to deliver their results so they have valuable health information when they need it most, we care about our people and are committed to excellence in the work.

Safety is a vital part of this process, and so we identified and discussed several key factors and considerations around safety in vaccine development provides insights.

Health, Wellness and Insurance

We have developed some of the world's most advanced testing capabilities to help improve health and lives.

97% customer satisfaction rate

With the support of our diagnostics capabilities to deliver drug trials that are both reliable and rigorous.

Family Scholarship Program

Please avoid wearing scented perfumes or creams when visiting our Patient Service Centres.

Objectives:

To promote academic–industry collaboration in education, research, skill development, internships, industrial training, and knowledge exchange.

Areas of Collaboration:

Student internships and industrial visits.

Guest lectures, workshops, and expert talks.

Collaborative research and project guidance.

Training on analytical and pharmaceutical techniques.

Skill development and placement support.

Joint organization of academic and technical events.

Terms:

This MoU is based on mutual cooperation and does not create any financial obligation on either party.

Both parties shall maintain confidentiality of shared information.

The MoU shall remain valid for five (5) years from the date of signing and may be renewed by mutual consent.

Either party may terminate this MoU by giving 30 days' written notice.
