Students Feedback Report

CONTENT

FEEDBACK COLLECTION:

The college has a regular practice of collecting students' feedback, analyzing it and action taken wherever necessary. But it was an offline mechanism of collecting feedback on printed feedback form.

In this academic session, the college has collected online feedback from the stake holders. The online questionnaire was made available on college website and students were asked to log in and submit their responses to the questionnaire.

The online questionnaires were prepared for three stakeholders ; Students, faculty and alumni.

A] Questionnaire for students feedback : It consisted of three sections, namely

1. Teaching, Learning and Evaluation (TLE) Process : In this section feedback was collected from all regular students of B.Sc. , B.C.A. and PG programs.

2. Services/facilities provided to students: In this section feedback was collected from all regular students of B.Sc. , B.C.A. and PG programs

3. Curriculum : In this section feedback was collected only from final year students of B.Sc., B.C.A. and PG programs.

Yes

The curriculum should be more application based rather than theory based.

Very interesting subject. Senior teachers should be appointed as the incharge during regular practicals of not only PCM group but other groups also. Practicals should be conducted strictly and should take strict action if not performed by any student.

It helps to clear our doubts regarding to the subject..

Physics syllabus is not well completed. So complete it.

New teacher staff want to be more cooperative

Satisfied

Good syllabus. Please note in the attendance of the students attending. Very few.
Teachers are putting their efforts to the best but strict action needs to be taken
against students not attending college lectures and attending private tuitions
regularly. Students bunk lectures and roam in the college premises. They attend only

If you have any suggestions regarding the Facilities an , write in Brief–

First of all , clean the girls' washroom it's disgusting , toilet seats and doors are tearing up from their joints and provide few more dustdins and clean washbasins it's never clean always clogged by something dirty . Make sure the apparatuses in labs are enough for the no. Of students performing experiment and enough chemicals should be there so it doesn't go out of stock amid practicals.
