## Process to identify Slow & Advanced Learners at entry level of the programme

## **Activities for Advanced Learners:**

- Students' participation in seminar/quiz/project competitions at local/state/national levels, in various projects, case study preparation, surveys, Filed Photo Competition, Geological Survey of India Training, Science Exhibition etc.
- Participation of PG students are in various Seminars/Conferences/ Workshops etc.
- Students are guided and supported to prepare themselves for national level examinations, such as JAM and NET/SET. They are also motivated and recommended for short term workshop of NIUS conducted by Homi Bhabha Science Centre, Mumbai.
- Institute organizes Summer Courses/ Short term courses for students.
- Advanced learners are provided hands on training of fabrication & design of experimental kits/setup.
- Use of computer in analysis of experimental observations is made mandatory for advanced learners.
- Advanced learners are allowed to guide and help the slow learners while performing laboratory experiments.
- Motivating research aptitude through events like AVISHKAR.
- Motivating students for career cell classes to appear for competitive exams.
- Departments follow various informal student-centric methods to meet the quest for knowledge of the advanced students. These include debates, individual and group presentations/ discussions, etc
- Advanced learners are encouraged to enroll for SWAYAMs NPTEL online courses under the mentorship of college faculty.
- Facility of virtual Laboratory of Amrita University.

### **Activities for Slow Learners:**

- To bridge the knowledge gaps of slow learners departments organize bridge courses for theory and practicals part of the curriculum.
- Lecture notes in printed or soft forms are made available.
- Departments provide text & reference books borrowing facilities at department library.
- Most of the departments have prepared a question bank and have a good collection of ebooks.
- Mentoring through guardian teacher scheme is our one of the best practices.
- Most of the departments provides Remedial coaching.
- Bilingual approach of teaching also benefits the slow learners to understand the subject.
- Activities of "Subject Clubs" such as guest lectures, quiz, poster competitions etc create interest in students.

## Reports on Competition on Presentation and Demonstration of Physics **Experiments**

Feb 27, 2017

SHRI SHIVAJI SCIENCE COLLEGE **AMRAVATI** 

Accredited by NAAC with "A" gra College with Potential for Excelle

College Auditorium

We are organizing a competition on "Presentation & Demonstration of Physics Experiments" to enable the undergraduate students to realize the importance of laboratory performing understanding the concepts in Physics.

We will be happy to have an active participation of the students from your esteemed college in this event to make it a grand success

#### Objectives:

There is an increasingly depressing trend of lack of interest in a career in science, particularly in Physics amongst the undergraduate students. It is due to the fact that students in Physics at the under graduate level are not much oriented towards experiments. Physics is an experimental science, which means that the theories presented within its framework must ultimately make their through the rigorous experimental verification. Experiments can sharpen students' faculty of observation, stimulate questions, help them to develop a new understanding and enrich their vocabulary. This competition may motivate the students to take interest in performing the experiments in Physics

#### Rules of the competition:

- The competition is only for the students of B.Sc. classes with the recommendation of the head of the institution.
- Only three entries, each from first, second & the final year of B. Sc. are allowed.
- The participants are expected to bring their apparatus of experiment from their college.
- If it is not possible then the participant can request the convener of the competition to
- The participant can bring demo charts/ information leaflets regarding
- The duration for the presentation is strictly 10 minutes.
- Traveling & other expenses must be borne by the participants or their institute.

#### Registration:

The entries are accepted through e-mail, post or telephonically on or before 20/02/2017

- physics1@gmail.com; Mo. 9960120900
- 3. nagpurepa@yahoo.co.in; Mo. 9970594292

## Seminar Competition on Presentation and Demonstration of Physics Experiments

#### Dear Sir,

We are organizing a competition on "Presentation & Demonstration of Physics Experiments" to enable the undergraduate students to realize the importance of laboratory work of performing experiments for understanding the concepts in Physics.

We will be happy to have an active participation of the students from your esteemed college in this event to make it a grand success.

#### Objectives:

There is an increasingly depressing trend of lack of interest in a career in science, particularly in Physics amongst the undergraduate students. It is due to the fact that students in Physics at the under graduate level are not much oriented towards experiments. Physics is an experimental science, which means that the theories presented within its framework must ultimately make their way through the rigorous experimental verification. Experiments can sharpen students' faculty of observation, stimulate questions, help them to develop a new understanding and enrich their vocabulary. This competition may motivate the students to take interest in performing the experiments in Physics.

#### Rules of the competition:

- The competition is only for the students of B.Sc. classes with the recommendation of the head of the institution.
- Three entries, one each from first, second & the final year of B. Sc. are allowed.
- The participants are expected to bring their apparatus of experiment from their college.
- If it is not possible, then the participant can request the convener of the competition to arrange for the same.
- The participant can bring demo charts/ information leaflets regarding the experiment.
- The duration for the presentation is strictly 10 minutes.
- Traveling & other expenses must be borne by the participants or their institute.

#### Registration:

The entries are accepted through e-mail, post or telephonically on or before 25/02/2018

- 1. sscphysics1@gmail.com; Mo. 9960120900
- 2. waman\_barde@rediffmail.com;Mo. 9403054350
- 3. nagpurepa@yahoo.co.in; Mo. 9404376940

There will be no registration fees for the competition.

The intercollegiate Seminar Competition on Presentation and Demonstration of Physics Experiments was organized on Feb 28, 2018, in collaboration with Amravati University Physics Teachers' Association, Amravati. Total 48 students of B.Sc. I, II & III from different colleges affiliated to SGB Amravati University, participated in the competition. The students explored and illustrated the inventive methods for understanding principles of Physics through simple, innovative and illustrative experiments. Dr. V.R. Pande, G.V.I.S.H. Amravati, Dr. V.P. Akhare, Shri Shivaji Science College, Amravati, Dr. R.V. Barde, I.G. MahavidhyalayaRalegaon, Dist. Yavatmal worked as the jury members and evaluated the students' performance in presentation and demonstration of the experiments, throughout the day. The event was well received from all the teachers and students. The event was supported and financed by the Principal, Shri Shivaji Science College, Amravati

## Based on the Jury's evaluation following students bagged the prizes:

Following students of B.Sc. from different colleges in the SGBA University Jurisdiction participated in this competition

Dear Sir.

The theme of NSD-2021 "Future of STI: Impacts on Education, Skills and Work" and the current scenario of Covid-19 Pandemic bearing in mind the Department of Physics is organizing a competition on "Presentation & Demonstration of Virtual Physics Experiments" to familiarize the Under graduate Physics students for Virtual

We will be happy to have an active participation of the students from your esteemed college in this event to make it a grand success.

#### Objectives:

There is an increasingly depressing trend of lack of interest in a career in science, particularly in Physics amongst the undergraduate students. It is due to the fact that students in Physics at the under graduate level are not much oriented towards experiments. Physics is an experimental science, which means that the theories presented within its framework must ultimately make their way through the rigorous experimental verification. Experiments can sharpen students' faculty of observation, stimulate questions, help them to develop a new understanding and enrich their vocabulary.

Since it is not possible this year for students to participate in the competition with actual experimental set up, we have decided to organize this competition with virtual experiments. This competition may motivate the students to take interest in performing the virtual experiments in Physics.

#### Rules of the competition:

- The competition is only for the students of B.Sc. classes with the recommendation of the head of the institution/department.
- Only three entries, one each from first, second & the final year of B. Sc. are allowed.
- The participants are expected to choose anyone virtual experiment to present.
- The virtual experiments may be chosen from any virtual laboratory available, such as https://vlab.amrita.edu/

http://vlabs.iitb.ac.in/vlab/

http://va-iitk.vlabs.ac.in/

http://physics.bu.edu/~duffy/vlabs.html

http://www.olabs.edu.in/

https://phet.colorado.edu/ etc.

- Each participant has to explain background/principle/theory of the experiment in his/her presentation of 10 minutes.
- Then he will have to demonstrate his/her virtual experiment in 5 minutes.
- Two best participants from each year of B.Sc. will be awarded with cash prize & a memento.

#### Registration:

Please find below the link for online registration. https://forms.gle/oCE2gtkrZcbMN5HbA
