## 4.2.4) (Q<sub>n</sub>M) Percentage per day usage of library by teachers and students (foot falls and login data for online access)

### Session: 2019-2020

On an average 200 students visit library every day for book issue/return and 30 students visit to read newspaper, issue of BT etc. The issue/return ratio is highest that is average 250 books during August to March (semester to semester) and 150 books during April to June.

On an average 15 Teachers visit library very often to issue books, referencing and 15 visits to read newspapers.

Due to Covid-19 pandemic situation, Government of India/state government of Maharashtra announced lockdown all over country. The colleges in Maharashtra were totally closed and as there were no directions regarding opening of colleges in the session 2020-21, library provided services to users on request with consent letter of parents and maintaining the SOPs of pandemic. The above table display the issue/return of session 2020-21.

But as the usage is **meager**, so our humble request to consider data of 2019-20 for the usage of library by teachers & students' scrutiny.
