Subject: Request for Permission to organize Training Programme

Respected Sir,

In view of the current requirement of the multinational companies and other employers, skilled candidates are highly demanded. It's the general understanding in our region that our students are with full of potential in terms of the knowledge, but when it comes to the presentation, our students are lagging.

Therefore, Career Counseling Cell is proposing a customized programme for our college students. The programme is entitled "Six Day Behavioural Training and Skill Development Programme (BTSDP)" covering all the basics of employability. We are planning the special programme in the regular evening classes of Career Counseling Cell during 21st to 28th July, 2018.

All UP and PG students will be invited for this training programme.

So, I may humbly request you to kindly grant the permission for organization of this program in benefit of our students.

Thank you.

Subject: Six Day Behavioural Training and Skill Development Programme (BTSDP)

Respected Sir,

We have successfully conducted Six Day Behavioural Training and Skill Development Programme (BTSDP) in the academic session 2017 -2018 during 21st to 28th July, 2018. The overwhelming response from the students motivated the Career Counseling Cell to organize second batch of the same course in this academic session.

We are planning to conduct the programme during 16th to 21st July, 2019. This will be open for all UG students of the college. The registration process will be commenced from 16th July, 2019. The regular classes for the said period will be conducted in AV Theatre.

On behalf of the Career Counseling Cell, I am requesting you to kindly grant the permission for the same. We further request you to kindly get the Course Content and Course Outcomes with the scheme of evaluation approved from College Development Committee for subsequent conduction of the course in future.

Thank you in anticipation.

Workshop Report

A Workshop on Personality Development was organized to explore the personality types existing among the college students and suggest them the best career choices as per their personality types. Through this workshop participants understand their personality types, conceptualize how their types fit into the structure of any organization, envision how they may achieve greater productivity, and learn to better navigate interpersonal relations within the workplace.

Understanding the personality type was very fascinating and valuable for all the students. A working knowledge of personality type, and how it functions in the professional sphere was the major thought discussed during the workshop.

From finding one's best career fit, managing conflict and organizational change, exploring the strengths, weaknesses and opportunities available for students were the significant outcomes of the workshop.

Overall, 167 applications were received to join the workshop, a list of 55 selected students was declared. Finally, 54 students actively participated in the workshop and completed all the assignments given to them.

To maximize the effectiveness of this workshop, it's important to keep the ideas alive within the group. So, the Career Counseling Cell planned further workshops to polish every person and keep them focused in the development of their personality.

The list of the participating students is attached herewith.

Course Report

Global Competencies Training Program

5th to 15th February, 2020

Many important skills need to be developed in a student to make a great career nationally and globally. To inculcate those skills Career Counselling Cell working under college had launched the course entitled "Global Competencies Training Program." The course curriculum was designed to develop the quality of the skills required to prepare Global Citizens out of normal college going students. This course was conducted from 5th to 15th February, 2020.

UG students from BSc, BCA and BVoc as well as PG students enrolled for the course. The course was commenced with the Induction Talk by Dr. Deepak Vohra, Ambassador, Government of India. He delivered fantastic talk on "Global Mega Trends".

Overall, 116 students participated in the course. It was concluded with the Valedictory Function chaired by IQAC coordinator Dr. H. S. Lunge. While sharing the feedback on the complete course students highlighted the need of this course. It was also pointed out by students that; the course has transformed their perspective. Students acknowledged the organizers and requested to conduct this course for longer duration with more attributes needed for the Global Competency. Certificates were distributed to all the participating students.

The coordinator of this course, Dr. Dinesh Khedkar, conducted the first session on the important topic of "Global Challenges for Career Development". Dr. Avinash Moharil, Dean, Sant Gadgebaba Amravati University provided guidance on "Social Awareness and Personal Attribution" and "Interpersonal Communication Skills". On the very important subject of "Language Skills", Dr. Vaishali Deshmukh, Shri Shivaji College of Arts and Commerce shed light. Dr. Rahul Shah, Tuljaram Chaturchand College Baramati discussed with the students two important topics, "Digital Media and Information Literacy" and "Using and Communicating through Digital Tools" and taught them the latest technology. Mr. Pankaj Gorde, Team Leader, Work Force Logic Mumbai, interacted with students on "Professional and Learning Competition" required in large companies. Mr. Manish Dhage, Director, Visionary Consultancy Ltd. Pune, gave the students an idea of the future challenges of "Organization and Teamwork Skills" which are essential for working in any national and international group. Dr. Dinesh Khedkar shed light on "Global Citizenship and Global Competencies" as well as "Innovative Thinking Skills" through various student

activities. The course was successfully concluded with the participation of a total of 116 students in the presence of Dr. Haribhau Lunge, IQAC Coordinator of the College. In the feedback given by the students, there is a great need for such programs and they feel that they have gone beyond the boundaries of the curriculum and learned about the real world and the necessary skills.

Five Days Course on Instrumental Techniques and Their Practical Applications for Students

Duration - 20-24 December, 2019

Organized by -
Department of Chemistry

Course Contents -

- Theoretical and Practical knowledge on HPLC and GC.
- Its Maintenance, Trouble shooting, analytical method development and validation techniques.
- Instrumentation, calibration and their applications in Industries
- Theoretical and Practical knowledge of IR, XRD, UV Vis spectrophotometer.

Course Highlights -

- Professional Exposure.
- Job Opportunities in Different Industries on the Basis of Instrumentation Techniques.

Participation is open to Students and Researchers

- Teaching Plan -

Friday, 20.12.2019

11.00 - 12.00 p.m. Theoretical session of HPLC
12.30 - 01.00 p.m. Tea Break
01.00 - 05.00 p.m. Practical of HPLC

Saturday, 21.12.2019

11.00 - 12.00 p.m. Theoretical session of Gas Chromatography
12.30 - 01.00 p.m. Tea Break
01.00 - 05.00 p.m. Practical of Gas Chromatography

Sunday, 22.12.2019

11.00 - 12.00 p.m. Theoretical session of Trouble Shooting, Calibration & Their Application
12.30 - 01.00 p.m. Tea Break
01.00 - 05.00 p.m. Practical of Trouble Shooting, Calibration

Monday, 23.12.2019

11.00 - 12.00 p.m. Theoretical session of Infra-Red, UV-Visible Spectroscopy
12.30 - 01.00 p.m. Tea Break
01.00 - 05.00 p.m. Practical of Infra-Red, UV-Visible

Tuesday, 24.12.2019

11.00 - 02.00 p.m. Theoretical & Practical session of XRD
02.00 - 03.00 p.m. Tea Break
03.00 - 05.00 p.m. Examination

Subject : To seek permission to organize Five day Training Programme “ Instrumental Techniques and Their Practical Application for students”

Respected sir,

With reference to the above subject I would like to request you to grant permission to organize **Five day Training Course “ Instrumental Techniques and Their Practical Application for students”** by Dept of Chemistry from 20 to 24 December 2019.

Thanking you.

Department of Chemistry

The Department of Chemistry has organized Five Day Training Course on "Instrumental Techniques and their Practical Applications for Students" from 20/12/2019 to 24/12/2019. Dr Shrikant A. Wadhal, Associate Professor, Department of Chemistry took initiative as a course coordinator to effectively carry out the sessions of this course. In this course total 33 students from different colleges participated for five days. Mr. Amol Gawande from Peaks Analytical and Research Centre, Nagpur provided the students with hands on training regarding some latest instruments like HPLC, Gas Chromatography, IR, FTIR, UV- VIS used in laboratories. This course proved to be very useful for students to get employment in various industries and Chemical laboratories and also to start their own enterprise. This certificate course definitely enhanced the student's skill in instrumental techniques in chemistry. This course was successfully organized by the Department of Chemistry.

The course was inaugurated by Prof. G. N. Chaudhari, Head, Department of Chemistry the Chief Guest of the function. Mr. Amol Gawande, Scientist, Peaks Analytical and Research Centre, Nagpur, was guest of honor. All faculty members and participants were present in the inaugural function. Prof. G. N. Chaudhari motivated the participants. Mr. Amol Gawande discussed about his seventeen years working experience in various Industries.

Some of the faculty members also participated in this Five Day Training Course on "Instrumental Techniques and their Practical Applications"

1st day of Training Programme (20/12/2019)

On 20th December 2019 Mr. Amol Gawande, Scientist, Peaks Analytical and Research Centre, Nagpur delivered Keynote speech on "Industrial Scope, Applications & Opportunities for Chemistry". He delivered lecture "Instrumentation & Theory of HPLC" and then he provided hands on training of HPLC to all the participants in Instrumentation laboratory.

He provided information regarding following good operating practices

- Isocratic HPLC, Gradient HPLC, Chromatographic conditions, Industries work based on Chemistry.
- Reverse phase HPLC, Normal Phase HPLC,
- In Instrumental training of HPLC Mr. Amol Gawande provided
- Training regarding Column(stationary phase) and liquid (mobile phase).
- How to inject dissolved sample into the flow path of the mobile phase.
- How to detect analytes bands, to quantitate peaks generated.
- .All these points were covered by providing individual sample to each participants and performing their hands on training.

2ndDay of Training Programme (21/12/2019)

On 21st December 2019, Mr. Amol Gawande had delivered lecture on Gas Chromatography Theory and Instrumentation. He had provided hands on training on Gas Chromatography.

He had given the training of following points of G C instrumentation.

1. Stationary Phase of Gas Chromatography. Packed Column, Capillary Column of G C instrumentation.
2. Gas Chromatography method parameters, Calibration of G C, Column oven, Injector Reproducibility, Detector linearity.
3. Demonstration of G C of various samples along with their standard values.
4. Performance of individual G C practical of each participants to run various samples through G C.

3rd day of Training Programme (22/12/2019)

On 3rd day of Training programme Mr Amol Gawande had given hands on training to each participants on

1. Trouble shooting.
2. Calibration HPLC instrument.

He also emphasized on the importance of HPLC in the research of Chemistry, trouble shooting, calibration of instruments through theory as well as practical.

4th day of Training Programme (23/12/2019)

On 4th day of Training programme Mr Amol Gawande had given hands on training to each participants about IR, FTIR instrumentation. Participants had carried out the IR practical training of samples of research students.

1. Preparation of sample KBr pallet.
2. Performance of individual IR practical of each participants of various samples through IR.
3. Recording of IR spectra with interpretation of IR spectrum.

5th day of Training Programme (24/12/2019)

On 5th day of Training programme Mr Amol Gawande had given hands on training to each participants about UV –Visible and XRD instrumentation. Participants had carried out the practical training of samples for this instrumentation. In the final session examination was conducted on this Instrumentation Course.

1. UV-Visible practical performance of various samples.
2. XRD Practical demonstration and performance of Practical training to each participant.
3. Examination of thirty questions conducted on this practical instrumentation. All the participants got Grade A, B, C on the basis of mark scored in the examination. (A grade = more than 85%, B grade = more than 75%, C grade = more than 60%)

List of programs conducted and the number of students enrolled for each of the events.

REPORT

National online one month training course on
“Instrumental Techniques and their Practical Applications for PG and Research Students”

1. Course Description:-

Now a day candidates with core analytical skills, sound knowledge and practical significance and troubleshooting of different sophisticated analytical instruments are appreciated and required by all the research, manufacturing, processing and contract manufacturing industries as well as government & public testing labs.

This course gives huge scope and ample opportunities in different industries like Food, pharmaceuticals, agrochemicals, fine chemicals, cosmetics, oil and paints perfumery, beverages, rubbers, plastics, clinical research, forensic, public testing labs, etc. .

Dr. Shrikant A. Wadhal, course coordinator, Mr. Amol Gawande, Scientist, Peaks Analytical and Research Centre, Nagpur, Dr AMit Bansiwai, Coordinator & Head SEAF and BDG, Professor, AcSIR, CSIR- National Environmental Engineering

1

Research Institute, Dr. Atul Wankhade Nanocatalysis lab, Department of Chemistry, Visvesvaraya National Institute of Technology, Nagpur

will provide online training regarding some latest instruments like HPLC, Gas Chromatography, IR, FTIR, UV- VIS, Karl Fischer, GCMS, used in laboratories.

This course is designed for:

- PG and research students intending to work in a laboratory with scientific instrumentation.
- Students preparing for Industrial jobs after completion of PG and Ph.D. degree.
- The course is designed for 40 hrs under value added course.

COURSE LAYOUT

1. Course will begins with scope, applications and opportunities of Instrumental techniques(HPLC, GC, IR, XRD,UV-Vis).
2. Instrumentation, theory, calibration, operation, trouble shooting, practical demonstration of HPLC.
3. Instrumentation, theory, calibration, operation, sampling practical demonstration, data collection of Gas Chromatography.
4. Instrumentation, theory, calibration, pallate formation, practical demonstration of Infra Red spectrophotometer.
5. Instrumentation, theory, calibration, operation, practical demonstration, data collection of XRD.
6. Instrumentation, theory, calibration, operation, practical demonstration with examples of UV-Visible.
7. Explanation of chemical drawings of reactions through Chem Draw, Isis Draw in MS Word .
8. good laboratory practices, good chromatographic practices

COURSE TYPE: Value Added Course

COURSE LEVEL: PG and Research Students.

2. Course Objectives:-

Now a days candidates with core analytical skills, sound knowledge and practical significance and troubleshooting of different sophisticated analytical instruments are appreciated and required by all the research, manufacturing, processing and contract manufacturing industries as well as government & public testing labs.

The course objectives are:

- To impart the required knowledge of Industrial Scope, Applications & Opportunities for Chemistry
- To impart the required knowledge, necessary skills & to provide the exposure to modern & sophisticated techniques of analysis that are being used all over the world including industries, government & public testing labs
- Theoretical knowledge of HPLC, Gas chromatography and IR, UV-Visible, XRDequipments.
- Practical knowledge on HPLC, Gas Chromatography and IR, XRD and UV-Visible equipments.
- To operate and to maintain the HPLC, GC and IR and XRDequipments.
- Instrumentation, Calibration and their practical applications in Industries.
- Wide courage will be given to Trouble shooting, Operation and method development skills.
- Perform cleaning evaluation on equipment for drug substance and residual detergents.
- Additionally, the course provides introduction to ChemDraw, Isis Draw software for chemical drawings in MS Word.

3. Instructional strategies:-

- Online submission of assignments after completion of session.
- Interactive session of students and resource person so as to solve difficulties of students.

4. Instructional Material:-

- Power point presentations related to the theory of instrumentations.
- Videos of practical demonstration of Gas chromatography, HPLC and IR equipments.
- Soft copies of notes related to the topics covered.
- Chem Draw, Isis Draw software for chemical drawing.

5. Summary:-

Upon successful completion of this course, the students will be able to:

- Rectify simple problems with sample preparation or data acquisition.
- Operate the HPLC, GC, XRD, IR instruments independently.
- Perform the trouble shooting in HPLC.

- Create sample reports including data from the HPLC, GC instrument, XRD, IR equipments.
- Know the applications of these instruments in various Industries which are helpful in job opportunity.
- Set up their own laboratory for business purpose.
- Draft a section of a resume to include this one month training course with specific instruments.
- Draw chemical drawings of reactions through ChemDraw, Isis Draw in MS Word related to their project work of PG and research work of Ph.D. degree.

6. Evaluation Strategies:-

- Certificates will be provided to the students with A, B, C grade depending on score secured. (A > 90%, B > 80%, C > 60%)
- 40% marks will depend on assignment submitted and 60% marks will depend on final examination score.

7. Duration of the Course:-

- The duration of the course is one month (01/08/2020 to 31/08/2020).
- The day wise lectures will be uploaded on Google classroom and You Tube also.
- Online demonstration of practical and discussion through Zoom after completion of each session.

8. Detailed time-wise Course session plan:-

Module 1 :-

Day	Topic	Assessment
Day - 1	Importance of Instrumentation of HPLC, GC, XRD, IR, UV-VIS Instruments in Industries.	Assignment
Day - 2	Introduction and importance of HPLC Techniques in Chemistry	Assignment
Day - 3	Isocratic HPLC, Gradient HPLC, Chromatographic conditions, Industries work based on Chemistry	Quiz
Day - 4	Reverse phase HPLC, Normal Phase HPLC	Assignment
Day - 5	Training regarding Column(stationary phase) and liquid (mobile phase)	Quiz
Day - 6	How to inject dissolved sample into the flow path of the mobile phase and detect analytes bands, to quantitative peaks generated	Assignment
Day - 7	Data collection with Interactive session	Assignment

Module 2 :-

Day	Topic	Assessment
Day - 8	Introduction and Applications of GC Instruments in Chemistry	Assignment
Day - 9	Stationary Phase of Gas Chromatography. Packed Column, Capillary Column of G C instrumentation	Assignment
Day - 10	Gas Chromatography method parameters, Calibration of G C, Column oven, Injector Reproducibility, Detector linearity	Quiz
Day - 11	Demonstration of G C of various samples along with their	Assignment

	standard values	
Day - 12	Practical demonstration of GC Part 1	Quiz
Day - 13	Practical demonstration of GC Part 2	Assignment
Day - 14	Analytical method development	Assignment

(Online discussion through Zoom after completion of each session)

Module 3:-

Day	Topic	Assessment
Day - 15	Introduction and Applications of IR Spectroscopy	Assignment
Day - 16	Instrumentation and demonstration of IR instrument	Assignment
Day - 17	Instrumentation and demonstration of FTIR instrument, IR Interpretation with various examples	Quiz
Day - 18	Introduction and importance of XRD in Chemistry	Assignment
Day - 19	Practical demonstration of XRD	Quiz
Day - 20	Practical demonstration of XRD with data collection	Assignment
Day - 21	Interpretation of IR and XRD spectrum of various sample	Assignment

Module 4 :-

Day	Topic	Assessment
Day - 22	Introduction of Applications of UV-Visible Instruments in Chemistry	Assignment
Day - 23	Practical demonstration of UV-Visible spectrophotometer	Assignment
Day - 24	Analytical method validation	Quiz
Day - 25	Practical demonstration on Determination of water content by Karl Fischer instrument.	Assignment
Day - 26	Chemical drawings of reactions through Chem Draw, Isis Draw in MS Word	Quiz
Day - 27	Final Examination and Valedictory session	Assignment

(Online discussion through Zoom after completion of each session)

REPORT

Now a day candidates with core analytical skills, sound knowledge and practical significance and troubleshooting of different sophisticated analytical instruments are appreciated and required by all the research, manufacturing, processing and contract manufacturing industries as well as government & public testing labs.

This course designed to give huge scope and ample opportunities in different industries like Food, pharmaceuticals, agrochemicals, fine chemicals, cosmetics, oil and paints perfumery, beverages, rubbers, plastics, clinical research, forensic, public testing labs, etc. The Department of Chemistry, Shri Shivaji Science College, Amravati organized this one month value based national training course for PG and research students from 01/08/2020 to 31/08/2020 under the guidance of Dr V. G. Thakare, Principal, Shri Shivaji Science College Amravati, Dr H. S. Lunge, Coordinator, IQAC, Dr G. N. Chaudhari, Head, Department of Chemistry..Dr. Shrikant A. Wadhal, course coordinator, Mr. Amol Gawande, Scientist, Peaks Analytical and Research Centre, Nagpur, Dr. Amit Bansal, coordinator & Head SEAF & BDG, NEERI, Nagpur, Dr Atul Wankhade, Department of Chemistry, VNIT, Nagpur provided online training regarding some latest instruments like HPLC, Gas Chromatography, GCMS, Atomic absorption Spectrophotometer, IR, UV- VIS double beam, UV –DRS, Karl Fischer instrument, ICP-OES used in laboratories and various companies.

Total 174 participants from different colleges from India participated in this course, out of 174 participants 124 qualified this course. Certificates provided to students with A,B,C grade depending on score secured (A> 75%, B> 60, C > 50%) 40% marks depends on assignment submitted and attendance and 60% marks will depends on final examination score.

This course designed for:

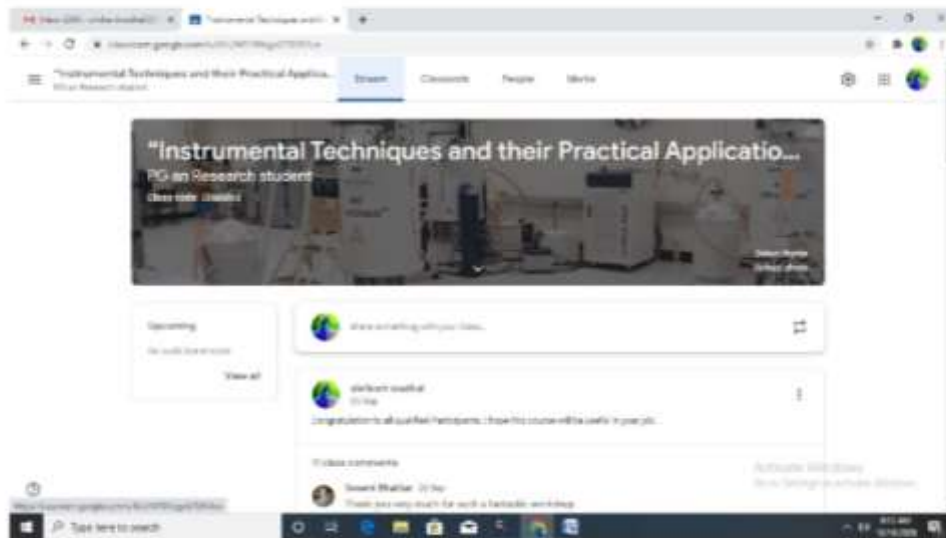

- PG and research students intending to work in a laboratory with scientific instrumentation.
- Students preparing for Industrial jobs after completion of PG and Ph.D. degree.
- The course designed for 40 hrs under value added course.

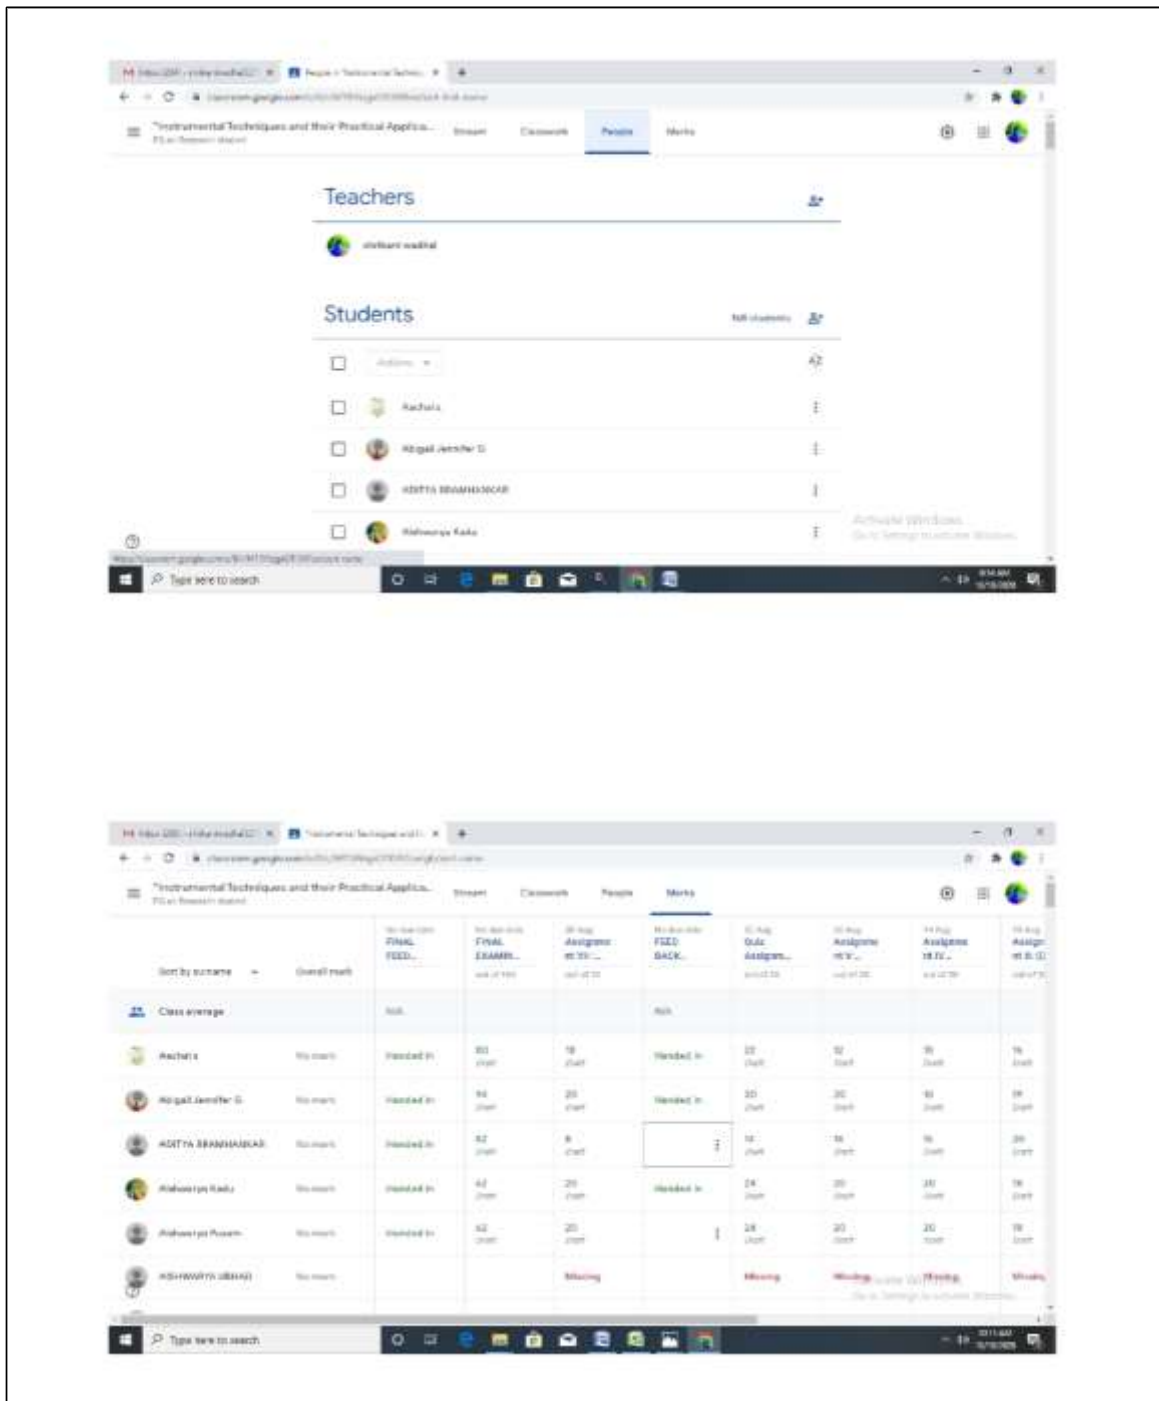

The course objectives achieved:

- To impart the required knowledge of Industrial Scope, Applications & Opportunities for Chemistry
- To impart the required knowledge, necessary skills & to provide the exposure to modern & sophisticated techniques of analysis that are being used all over the world including industries, government & public testing labs
- Theoretical knowledge of HPLC, Gas chromatography, IR, UV-Visible, XRD, Atomic Absorption Spectrophotometer, GCMS, Inductively Coupled Plasma Optical Emission Spectrometer (ICP-OES), Karl Fischer instrument, UV diffraction equipments.
- Practical knowledge on HPLC, Gas Chromatography and IR, XRD and UV-Visible, Atomic Absorption Spectrophotometer, GCMS, Karl Fischer instrument, ICP-OES, UV diffraction equipments.
- To operate and to maintain the HPLC, GC and IR and XRD equipments.
- Instrumentation, Calibration and their practical applications in Industries.
- Wide courage will be given to Trouble shooting, Operation and method development skills.
- Perform cleaning evaluation on equipment for drug substance and residual detergents.
- Interactive sessions were engaged on zoom meeting .In these sessions interaction between participants and resource persons were held to solve difficulties regarding problems in the instrumentations.

Details of the course (ITPA 2020) conducted :-

The online education has become powerful response to assist this century's workforce in its growing need to acquire and develop skill. Total 175 participants from different colleges of India admitted in this online one month course "ITPA 2020". All the participants joined Google classroom for classwork. The details of Google classroom's work with links are as follow

List of programs conducted and the number of students enrolled for each of the events.

Online One Month Training Course on Instrumental Techniques and Their Practical Applications for PG and Research Students

Duration : 01 August, 2020 to 31 August, 2020

SHRI SHIVAJI SCIENCE COLLEGE, AMRAVATI
Accredited by NAAC with "A" Grade (very good) with a CGPA of 3.13 College with Potential for Excellence

Organized by DEPARTMENT OF CHEMISTRY

Value based Course 2020-21

PERMISSION LETTER

To,
The Principal,
Shri Shivaji Science College Amravati

Subject: To seek permission to organize Online Training Programme on "Advanced Instrumentation and their Practical Applications for UG and PG students"

Respected sir,

With reference to the above subject I would like to request you to grant permission to organize online Training course on "Advanced Instrumentation and their Practical Applications for UG and PG students" by Department of Chemistry, Shri Shivaji Science College, Amravati from 17th August to 7th September 2021.

Thanking you

Date: 13/08/2021

Online National Training Course on Advanced Instrumentation Techniques and Their Practical Applications for PG and Research Students (AITPA-2021)

Duration : 17 August, 2021 to 7 September, 2021 (Twenty One Days)

Course Description:-
Now a days candidates with core analytical skills, sound knowledge and practical significance and troubleshooting of different sophisticated analytical instruments are appreciated and required by all the research, manufacturing, processing and contract manufacturing industries as well as government & public testing labs.
This course gives huge scope and ample opportunities in different industries like Food, pharmaceuticals, agrochemicals, fine chemicals, cosmetics, oil and paints, perfumery, beverages, rubbers, plastics, clinical research, forensic, public testing labs, etc. Dr. Shrikant A. Wadhal, course coordinator and Mr. Arnot Gawande, Scientist, Peaks Analytical and Research Centre, Nagpur will provide online training regarding some latest instruments like HPLC, Gas Chromatography, IR, FTIR, UV-VIS, Karl Fischer, GCMS, Atomic Absorptions Spectrophotometer, ICP-OES, UV Diffraction equipments used in laboratories.

This course is designed for:

- PG and research students intending to work in a laboratory with scientific instrumentation.
- Students preparing for industrial jobs after completion of PG and Ph.D. degree.
- The course is designed for 40 hrs under value added course.

COURSE LAYOUT

1. Course will begin with scope, applications and opportunities of instrumental techniques(HPLC, GC, IR, XRD, UV-Vis, ICP-OES, GCMS, AAS).
2. Instrumentation, theory, calibration, operation, trouble shooting, practical demonstration of HPLC.
3. Instrumentation, theory, calibration, operation, sampling practical demonstration, data collection of Gas Chromatography, GCMS.
4. Instrumentation, theory, calibration, pallate formation, practical demonstration of Infra Red spectrophotometer.
5. Instrumentation, theory, calibration, operation, practical demonstration, data collection of XRD & ICP-OES.
6. Instrumentation, theory, calibration, operation, practical demonstration with examples of UV-Visible & AAS.
7. Explanation of chemical drawings of reactions through Chem Draw, Isis Draw in MS Word.
8. Good laboratory practices, good chromatographic practices

COURSE TYPE: Value Added Course
COURSE LEVEL: PG and Research Students.

1. Course Objectives:-
Now a days candidates with core analytical skills, sound knowledge and practical significance and troubleshooting of different sophisticated analytical instruments are appreciated and required by all the research, manufacturing, processing and contract manufacturing industries as well as government & public testing labs.
The course objectives are:

- To impart the required knowledge of Industrial Scope, Applications & Opportunities for Chemistry
- To impart the required knowledge, necessary skills & to provide the exposure to modern & sophisticated techniques of analysis that are being used all over the world including industries, government & public testing labs
- Theoretical knowledge of HPLC, Gas chromatography and IR, UV-Visible, XRD equipments, GCMS, AAS.
- Practical knowledge on HPLC, Gas Chromatography and IR, XRD and UV-Visible equipments.
- To operate and to maintain the HPLC, GC and IR and XRD equipments.
- Instrumentation, Calibration and their practical applications in Industries.
- Wide courage will be given to Trouble shooting, Operation and method development skills.
- Perform cleaning evaluation on equipment for drug substance and residual detergents.
- Additionally, the course provides introduction to ChemDraw, Isis Draw software for chemical drawings in MS Word.

2. Instructional strategies:-

- Online submission of assignments after completion of session.
- Interactive session of students and resource person so as to solve difficulties of students.

3. Instructional Material:-

- Power point presentations related to the theory of instrumentations.
- Videos of practical demonstration of Gas chromatography, HPLC and IR equipments.
- Soft copies of notes related to the topics covered.
- Chem Draw, Isis Draw software for chemical drawing.

4. Summary:-
Upon successful completion of this course, the students will be able to:

- Rectify simple problems with sample preparation or data acquisition.
- Operate the HPLC, GC, XRD, IR, AAS, GCMS, ICP-OES instruments independently.
- Perform the trouble shooting in HPLC.
- Create sample reports including data from the HPLC, GC instrument, XRD, IR equipments.
- Know the applications of these instruments in various industries which are helpful in job opportunity.
- Set up their own laboratory for business purpose.
- Draft a section of a resume to include this one month training course with specific instruments
- Draw chemical drawings of reactions through ChemDraw, Isis Draw in MS Word related to their project work of PG and research work of Ph.D. degree.

5. Evaluation Strategies:-

- Certificates will be provided to the students with A, B, C grade depending on score secured. (A > 90%, B > 80%, C > 60%)
- 40% marks will depend on assignment submitted and 60% marks will depend on final examination score.

6. Duration of the Course:-

- The duration of the course is twenty one days (17/08/2021 to 07/09/2021).
- The day wise lectures will be uploaded on Google classroom and You Tube also.
- Online demonstration of practical and discussion through Zoom after completion of each session.

Online National Training Course on Advanced Instrumentation Techniques and Their Practical Applications for PG and Research Students (AITPA-2021)

Duration : 17 August, 2021 to 7 September, 2021 (Twenty One Days)

7. Detailed time-wise Course session plan:-

Module : 1

Day	Topic	Assessment
Day - 1	Importance of Instrumentation of HPLC, GC, XRD, IR, UV-VIS Instruments in Industries.	Assignment
Day - 2	Introduction and importance of HPLC Techniques in Chemistry	Assignment
Day - 3	Isocratic HPLC, Gradient HPLC, Chromatographic conditions, Industries work based on Chemistry, Reverse phase HPLC, Normal Phase HPLC	Quiz
Day - 4	Training regarding Column(stationary phase) and liquid (mobile phase)	Assignment
Day - 5	How to inject dissolved sample into the flow path of the mobile phase and detect analytes bands, to quantitative peaks generated	Quiz
Day - 6	Theory & Instrumentation of AAS,	Assignment
Day - 7	Data collection with Interactive session	Assignment

Module : 2

Day	Topic	Assessment
Day - 8	Introduction and Applications of GC Instruments in Chemistry	Assignment
Day - 9	Stationary Phase of Gas Chromatography: Packed Column, Capillary Column of G C Instrumentation Demonstration of G C of various samples	Assignment
Day - 10	Gas Chromatography method parameters, Calibration of G C, Column oven, Injector Reproducibility, Detector linearity	Quiz
Day - 11	Practical demonstration of GC Part 1	Assignment
Day - 12	Practical demonstration of GC Part 2	Quiz
Day - 13	Analytical method development	Assignment
Day - 14	Theory & Practical Demonstration of ICP-OES	Assignment

(Online discussion through Zoom after completion of each session)

Module : 3

Day	Topic	Assessment
Day - 15	Introduction, Applications & Instrumentation & demonstration of IR Spectroscopy	Assignment
Day - 16	Introduction of Applications of UV-Visible Instruments in Chemistry	Assignment
Day - 17	Practical demonstration of UV-Visible spectrophotometer	Quiz
Day - 18	Practical demonstration on Determination of water content by Karl Fischer instrument & UV Diffraction equipment	Assignment
Day - 19	Introduction, importance & demonstration of XRD in Chemistry	Quiz
Day - 20	Practical demonstration of XRD with data collection Interpretation of IR and XRD spectrum of various sample	Assignment
Day - 21	Final Examination and Valedictory session	

(Online discussion through Zoom after completion of each session)

1. Course Outline:

Module -1 Theory, Instrumentation and Practical demonstration of HPLC

- Importance of Instrumentation of HPLC, GC, XRD, IR, UV-VIS Instruments in Industries.
- Introduction and importance of HPLC Techniques in Chemistry
- Isocratic HPLC, Gradient HPLC, Chromatographic conditions, Industries work based on Chemistry
- Reverse phase HPLC, Normal Phase HPLC
- Training regarding Column(stationary phase) and liquid (mobile phase).
- How to inject dissolved sample into the flow path of the mobile phase and detect analytes bands, to quantitative peaks generated.
- Data collection with Interactive session.

Module -2 Theory, Instrumentation and Practical demonstration of Gas Chromatography

- Introduction and Applications of GC Instruments in Chemistry.
- Stationary Phase of Gas Chromatography, Packed Column, Capillary Column of G C instrumentation
- Gas Chromatography method parameters, Calibration of G C, Column oven, Injector Reproducibility, Detector linearity
- Demonstration of G C of various samples along with their standard values.
- Practical demonstration of GC Part 1.
- Practical demonstration of GC Part 2.
- Analytical method development.

Module -3 Theory, Instrumentation and Practical demonstration of IR and XRD

- Introduction and Applications of IR Spectroscopy.
- Instrumentation and demonstration of IR instrument.
- Instrumentation and demonstration of FTIR instrument, IR Interpretation with various examples.
- Introduction and importance of XRD in Chemistry.
- Practical demonstration of XRD.
- Practical demonstration of XRD with data collection.
- Interpretation of IR and XRD spectrum of various sample.

REPORT

The market has many high paying jobs and candidates need the skill to get them. Every company, Government and public testing labs is looking for talented individual for different technical role. Now a day candidates with core analytical skills, sound knowledge and practical significance and troubleshooting of different sophisticated analytical instruments are appreciated and required by all the research, manufacturing, processing and contract manufacturing industries as well as government & public testing labs.

This job oriented course designed to give huge scope and ample opportunities in different industries like Food, pharmaceuticals, agrochemicals, fine chemicals, cosmetics, oil and paints perfumery, beverages, rubbers, plastics, clinical research, forensic, public testing labs, etc. Candidates with the core analytical skill of different sophisticated analytical instruments can set up their own testing laboratories also.

The Department of Chemistry, Shri Shivaji Science College, Amravati organized this one month value based national training course for PG and research students from 17/08/2021 to 07/09/2021 under the guidance of Dr G. N. Chaudhari, Principal, Shri Shivaji Science College Amravati, Dr H. S. Lunge, Coordinator, IQAC, Dr. Shrikant A. Wadhal, course coordinator, Mr. Amol Gawande, Scientist, Peaks Analytical and Research Centre, Nagpur, Dr. Amit Bansal, coordinator & Head SEAF & BDG, NEERI, Nagpur, Dr Atul Wankhade, Department of Chemistry, VNIT, Nagpur provided online training regarding some latest instruments like HPLC, Gas Chromatography, GCMS, Atomic absorption Spectrophotometer, IR, UV- VIS double beam, UV –DRS, Karl Fischer instrument, ICP-OES used in laboratories and various companies.

Total 154 participants from different colleges from India participated in this course , In this course participants were from Kalindi college, Delhi University, Department of chemistry University of Delhi, M.S.G. college Malegaon, KPG College, Igatpuri, Nashik, KTHM College Nashik, Adarsh MahavidyalayaDhamangaon Rly, Bajaj College, Wardha, Vaidyanath college, Beed, NabiraMahavidyalaya, Katol, RTM Nagpur University,Nagpur, NES Science College, Nanded,SantajiMahavidyalaya Nagpur, Phulsingh Naik MahavidyalayaPusad, Mahatma FuleMahavidyalaya, Warud, Jagadamba college, Achalpur, Shri Shivaji Science College, Akola, SGB Amravati University, Vidyabharati College Amravati, Narasamma College Amravati, GVISH Amravati, Shri Shivaji Science College, Amravati. In this course out of 154 participants 108 qualified this course. Certificates provided to students with A,B,C grade depending on score secured (A⁺ =80%, A>= 65-79, B >= 50-64%, No certificate< 50%) 40% marks depends on assignment submitted and attendance and 60% marks will depends on final examination score.

This course designed for:

- PG and research students intending to work in a laboratory with scientific instrumentation.
- Students preparing for Industrial jobs after completion of PG and Ph.D. degree.

The course designed for 40 hrs under value added course.

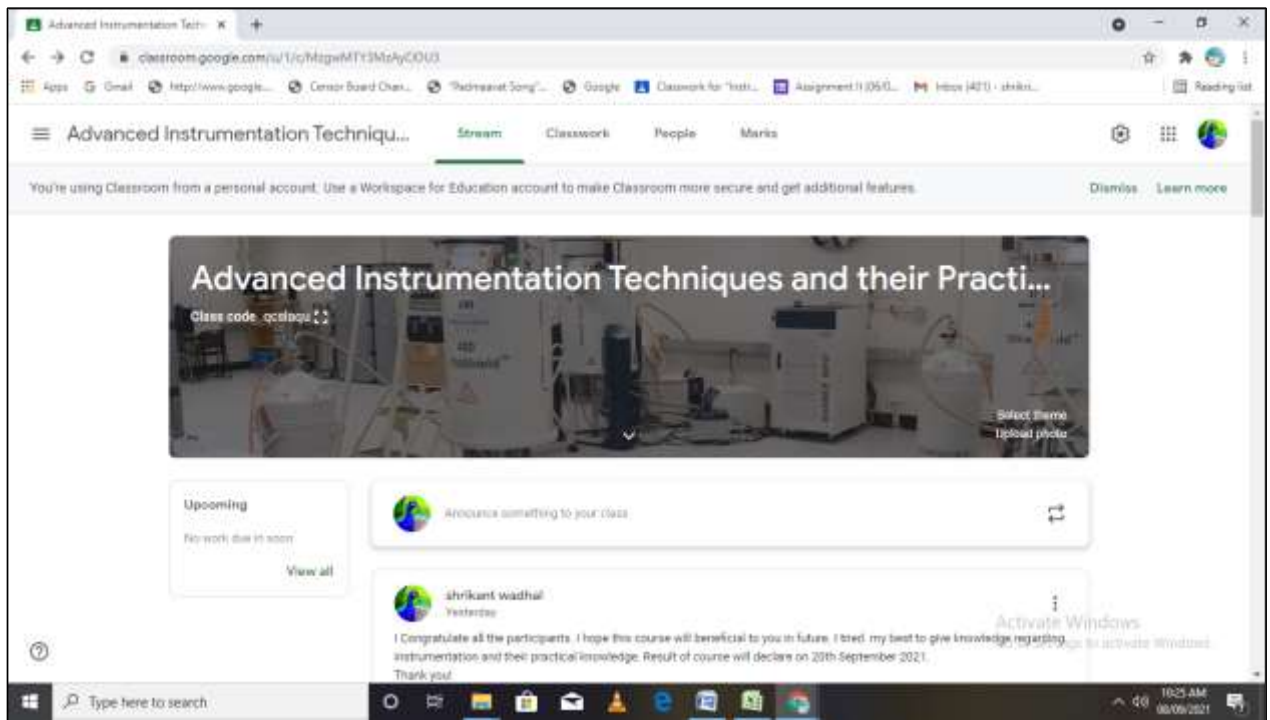

The course objectives achieved:

- To impart the required knowledge of Industrial Scope, Applications & Opportunities for Chemistry
- To impart the required knowledge, necessary skills & to provide the exposure to modern & sophisticated techniques of analysis that are being used all over the world including industries, government & public testing labs
- Theoretical knowledge of HPLC, Gas chromatography, IR, UV-Visible, XRD, Atomic Absorption Spectrophotometer, GCMS, Inductively Coupled Plasma Optical Emission Spectrometer (ICP-OES), Karl Fischer instrument, UV diffraction equipments.
- Practical knowledge on HPLC, Gas Chromatography and IR, XRD and UV-Visible, Atomic Absorption Spectrophotometer, GCMS, Karl Fischer instrument, ICP-OES, UV diffraction equipments.
- To operate and to maintain the HPLC, GC and IR and XRD equipments.
- Instrumentation, Calibration and their practical applications in Industries.
- Wide courage will be given to Trouble shooting, Operation and method development skills.
- Perform cleaning evaluation on equipment for drug substance and residual detergents.
- Interactive sessions were engaged on zoom meeting .In these sessions interaction between participants and resource persons were held to solve difficulties regarding problems in the instrumentations.

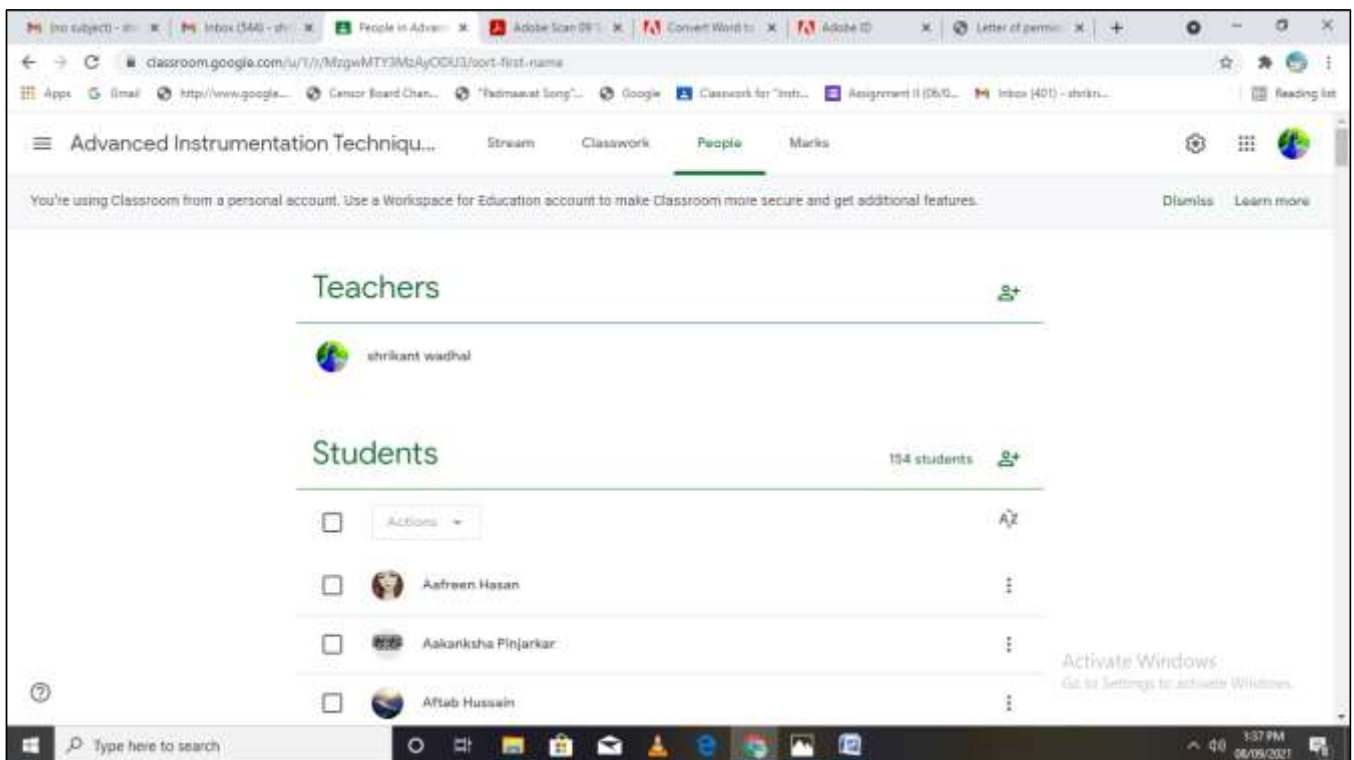

Details of the course (AITPA 2021) conducted :-

The online education has become powerful response to assist this century's workforce in its growing need to acquire and develop skill. Total 154 participants from different colleges of India admitted in this online three week course "AITPA 2021". All the participants joined Google classroom for classwork. The details of Google classroom's work with links are as follow

**ONLINE Two DAYS WORKSHOP on
RESEARCH METHODOLOGY COURSE**
FOR Ph.D RESEARCH SCHOLARS IN FACULTY OF SCIENCE
ON 11TH APRIL 2021 - 12TH APRIL 2021

Open to: Research Scholars pursuing PhD in the faculty of Science
in recognised universities/institutions in India.

Online meeting platform: Zoom
Registration fee: Nil
Last date for applying: 10th April 2021

Organizer
Department of Chemistry
SHRI SHIVAJI SCIENCE COLLEGE, AMRAVATI

Re-Accredited by NAAC with "A Grade" (Very Good) with a CGPA 3.13 (3rd Cycle)
"College with Potential for Excellence"
Shivaji Nagar, Morshi Road, Amravati, Maharashtra - 444 603

About Shri Shivaji Education Society :

The Shri Shivaji Education Society, Amravati was founded by the great visionary & the first Union Agricultural Minister of Govt. of India late Dr. Panjabrao alias Bhausaheb Deshmukh.

Shri Shivaji Education Society, Amravati is a premier educational institution of Central India with branches in all the districts of Vidarbha in Maharashtra. It has established more than 300 educational institutions which include schools, colleges, hostels, a hospital and other teaching and technical institutions.

In these institutions different courses are offered like Agriculture, Arts, Commerce, Bio-technology, Computers Science, Education, Physical education, Engineering, Horticulture, Information Technology, Law, Medicine, Micro-biology, Nursing, Forensic Science and the pure Sciences. It also runs a Polytechnic institute for boys and girls at Amravati.

The Shri Shivaji Education Society has received different honours from State & Central government -

- Dr. Babasaheb Ambedkar 'Dalit Mitra' Award (1993-94) by the Govt. of Maharashtra.
- Gadge Maharaj Memorial Award (1999-2000)
- Govt. of Maharashtra's "Best Administered Society" in the state with a cash award of Rs. 1 lakh (5th September, 2000)
- Leadership Award of Excellence in Education (Feb.11, 2011)
- Maharashtra Nirmata Award (May 2011)

About the Institution:

Shri Shivaji Science College, Amravati was established in 1969 by "Shri Shivaji Education Society, Amravati".

Our aim is to provide quality education and to equip our students with analytical insights, intellectual maturity, strength of purpose and willingness to work hard conforming to ethical values. To attract and develop talented and committed human resource and provide an environment conducive to innovation, creativity, team-spirit and entrepreneurial leadership for the overall growth of the Country.

Ours is the first College in SGB Amravati University area to go for Accreditation by NAAC with "A Grade" with a CGPA 3.13 (3rd Cycle)

Salient Features:

- Sprawling campus with lush green garden / lawns.
- Central instrumentation facility (CIC) for researchers.
- Spacious and separate UG, PG and research labs with state of the art facilities.
- Rich central library with independent study rooms, fully atomized with NRC.
- State of the Art Computer laboratories with internet & Wifi connectivity
- Highly qualified and dedicated Staff.
- B.Sc. with 14 combinations, B.C.A. and M.Sc. in Chemistry, Botany, Bioinformatics, Computer Software, Physics, Zoology, Environmental Science.
- Two B.VoC Courses (Forensic Sciences & Data Analytics).
- Five COC courses and one innovative Course.
- Ph.D. facility in Chemistry, Botany, Geology, Mathematics, Physics, Microbiology, Statistics and Zoology.
- Best practices such as: Academic Audit, Feedback Mechanism, Cross Stock verification, Guardian Teacher Scheme, Continuous Evaluation and Dress Code.

The workshop will impart the participants with knowledge of research methods, research process, use of research tools and techniques, writing and presentation skills to the young researchers. The Workshop also expects to prepare participants to approach research in a pragmatic way, reshaping the research question and the argument in context of engaging in empirical data collection. The workshop will primarily facilitate exchange of knowledge, experiences and best practices aimed at mitigating common pitfalls in research. By the end of the programme, the participants should be confident in using the right methods and tools to analyze data. They will also be able to better design their primary research studies as well as to quickly enter and analyze this information.

Specific objectives of the workshop are,

1. To expose the participants to the diverse research methodologies in interdisciplinary research.
2. To assist the participants in selecting the suitable method(s) while conducting research.
3. To train the participants in using the quantitative methods and also qualitative research methods.
4. To encourage and train the participants in the art of academic writing and publishing in reputed journals.
5. To familiarize the participants with the E-resources and Digital Tools in academic writing.
6. To train the participants to do literature review

The workshop will comprise a series of lectures by senior scientists on various aspects of research methodology, who will train the participants in select tools and techniques. The workshop will also encourage participants to share their work and seek feedback.

Expected outcome of this Workshop :

1. By the end of the workshop, the participants will learn how to formulate research questions, research design, be equipped to collect and analyse data leading to new insightful research findings.
2. Expose the participants to various research techniques and method/s to conduct interdisciplinary research
3. Participants acquiring ideational and practical understanding on and familiarity with interdisciplinary research
4. The conduct and practices of qualitative and quantitative research
5. The importance of academic publication and career implications
6. Review of literature

Topics to be covered:

- i. Introduction to research
- ii. Paradigms in Interdisciplinary & Multidisciplinary research
- iii. Review of Literature
- iv. Qualitative data Analysis
- v. Quantitative Methodologies & Data Analysis
- vi. Steps of Academic Writing
- vii. Ethics in Research
- viii. Citations & references

Who can attend:

1. Ph.D. Research Scholars from Universities / Institutions belonging to Sant Gadge Baba Amravati University, Amravati are eligible to apply for this workshop.
2. The research scholar who has registered for their Ph.D Course work are Eligible to apply for the workshop.

Guidelines:

No registration fees

Last date for Registration : 10th April 2021

Platform : ZOOM

Meeting link will be shared only to the selected participants

E- Certificate will be provided to all the registered participants who attend all the sessions

Registration through Google form.

Link for Registration-

NOTE:

1. A total of 60 Ph.D Research Scholars on first cum and first serve basis.
2. All the applicants must have a personal E-mail id, personal desktop/laptop/smart phone with uninterrupted internet facility to participate in this online workshop.
3. The applicants should also send a scanned copy of Admission certificate of Ph.D. Course

RESEARCH METHODOLOGY COURSE (RMC-21) FOR Ph.D.
RESEARCHSCHOLARS IN FACULTY OF SCIENCE.

Date: 10th& 11th 2021

Venue: Department of Chemistry

Registered participants: 62

The aim and objectives: The aim of RMC-21 is a way to systematically solve a research problem. It is a science of studying how research is done specifically. The workshop is mainly for PhD scholar in order to enhance the knowledge while perusing PhD and achieve their goal. It was mix reaction to organize such workshop in the COVID pandemic because of time constraint and to conduct it online mode but any way it was good response from participant's sides.

Day 1: on day 1 the inaugural function for the inaugural, respected Principal Dr. V.G.Thakare, Chair The session, Dr. G.N. Chaudhari, Prof and Head Department of Chemistry, Convener of the workshop and vote of thanks was given by Dr. N.R. Thakare.

In the workshop Day one has two lectures for the first session, the speaker Dr.Ranjit Thomas delivers his talk on “Academic writing in Sciences plagiarism citation and ethics” and second speaker was Dr.N.S.Chandan delivered his talk on “Research Opportunities in India and abroad “ the session was chaired by Dr. A. S. Burghate , Professor in Chemistry.

For the second session Dr.Payal Joshi, delivered her talk on “preparing a robust supplementary information research data” The session was chaired by Dr.P.R.Padole, Professor in Chemistry.

Day 2:

For the first session, the speaker were Dr.PravinIngole –IIT Delhideliver his talk on “writing your research proposal? Mind some key aspect” and second speaker was Prof. VivekPoleshettiwar, TIFR Mumbai delivered his talk on “how to conduct novel and quality research” the session was chaired by Dr.yogitaThakare

For the second session, the speaker were Dr. H.S. Lunge Professor in Statistics delivered his talk on “Data analytics and its interpretation” and second speaker was Dr. P.R. Bhagat Professor in Chemistry, VIT Vellore deliver his talk on “Importance of research area in Basic sciences and ethics” and the session was chaired by Dr. P. R. Mandlik , Professor in Chemistry

Nano Material synthesis and characterization techniques

2020-2021

Copy of circular /brochure /report of the event:

Short Term Course on
“Nanomaterials Synthesis and Characterization Techniques”
26th August to 6th September 2021

REPORT

Nanotechnology and Nanoscience are interdisciplinary fields that include chemistry, physics, biology, materials science, electrical engineering, and many more. The current course was implemented with an aim to provide an overview of some of the basic principles behind nanotechnology and nanomaterials, as well as various synthesis methods, characterisation techniques and applications. A two-week short-term course on “Nanomaterials Synthesis and Characterization Techniques 2021” was designed and implemented by Department of Physics during 26th August to 8th September 2021 for Physics Chemistry Students, Research scholars and Faculty members.

The course was announced through online platforms one month prior to the commencement. An enormous response had received from the Physics (material science) students from all over India, including the UG/PG/Research students of several reputed Research Institutions, Central Universities, State Universities, Deemed Universities and Affiliated collages as well as few students from abroad viz. M.A.H.E. Dubai Campus. In all 115 students registered for this course. After rigorous evaluation through the ten assessments 62 have found eligible for awarding the course completion certificate. The course was conducted totally through online platform as Video Lectures (You Tube) and Live Online Lectures (Zoom).

The expected outcomes of the course from the participants as mentioned below have confirmed through the evaluation of the assignments conducted during the course. The satisfaction of the students is reflected in their feedbacks about the course contents, content delivery, doubt solving and evaluation process.

Students learned through this course:
 After completing the course the students equipped with basic understanding of the following.

- Selection of synthesis methods that can be best suited for developing nanostructured materials.
- Synthesis approach for fabrication of inorganic 0D, 1D, 2D nanostructures.
- Importance of nano materials over bulk materials.
- Size dependent physical and chemical properties of nanomaterials.
- Selection of characterization tools (including X-ray diffraction, FTIR, UV-vis spectroscopy, electron microscopy techniques (SEM and TEM), etc), to characterize nanomaterials.
- Students will be capable to perform stoichiometric calculations of chemical reaction.
- Analysis and interpretation of data related to X-ray diffraction, UV-VIS spectra, FTIR spectra and other structural parameters.

प्रती,
 मा. प्राचार्य,
 श्री शिवाजी विज्ञान महाविद्यालय,
 अमरावती

विषय: कॅश कोर्स आयोजनासाठी परवानगी

मा. महोदय,

सद्यस्थितीत कुठल्याही सरकारी, निमसरकारी किंवा खाजगी नोकरीसाठी, जिल्हाधिकारी ते तलाठी/ग्रामसेवक किंवा खाजगी कंपन्यांमध्ये असणाऱ्या अनेक पदांसाठी विविध स्पर्धा परीक्षा, ऑपटीयुड टेस्ट, मुलाखत घेण्यात येत असतात. परंतु त्यामध्ये आपले विद्यार्थी यशस्वी होत नसल्याची सतत ओरड होत असते. या सर्व स्पर्धा परीक्षा (पूर्व तसेच मुख्य), ऑपटीयुड टेस्ट, मुलाखत यासाठी अत्यावश्यक असलेल्या विषयांवर आधारित अत्यंत महत्वाच्या स्पर्धा परीक्षा कॅश कोर्स चे आयोजन महाविद्यालयाच्या करिअर सेल अंतर्गत करण्याचे नियोजन करण्यात आले आहे. सदर कॅश कोर्स दररोज संध्या ५.३० ते ७.०० या वेळेत दिनांक १२ फेब्रु ते ८ मार्च २०१८ पर्यंत महाविद्यालयाच्या ए. व्ही. थिएटर मध्ये घेण्यात येईल.

या कॅश कोर्ससाठी तज्ञ मार्गदर्शक आमंत्रित प्रा. सुधीर टोलमारे यांना आमंत्रित करण्यात आले आहे. त्यांचे प्रमुख मार्गदर्शनात सर्व विद्यार्थ्यांना इतिहास, भूगोल, अर्थव्यवस्था, राज्यघटना, राज्यव्यवस्थापन व पंचायत राज या विषयांवर सर्व स्पर्धा परीक्षांसाठी उपयुक्त असे सर्व विषय शिकविण्यात येतील.

तरी, आपणास नम्र विनंती कि, कृपया या कोर्सच्या आयोजनाची परवानगी देऊन, महाविद्यालयातील ए. व्ही. थिएटरची सुविधा उपलब्ध करून द्यावी.

धन्यवाद.

आपला नम्र

ORIENTATION PROGRAM FOR OPPORTUNITIES IN JAPAN

Date of the Event:	August 23 , 2018
No of the Students benefited:	159
Guest Speaker:	Mrs. Sujata Kolekar, Asst. Director, Cognizant, Pune

REPORT

Japan is the most favourite destination for the Indians to get chance of placement. Moreover, Japan itself is growing economy in world and offering hundreds of the ways to work. In India, Japan is expanding with its huge business empires.

The Japanese government has recently made changed visa and immigration policies that are making it easier than ever for foreign workers to come to Japan. Govt of India has also extended mutual collaboration with the Japan. Eventually, achieving employment in Japan or Japanese ventures in India opened up many opportunities for the youngster.

To explore job and Entrepreneurship opportunities in Japan and make our students employable globally, Career Counselling Cell has organised Motivational and Expert Guidance Session at Sir C. V. Raman Auditorium, Shri Shivaji Science College, Amravati. The professional counsellor Mrs Sujata Kolekar, Associate Director, Cognizant India Private Limited was invited for the same.

The skills required to job and Entrepreneurship seeker youths and in Japan were explained in very lucid interactions by Mrs. Sujata. She also revealed hundreds of opportunities available in the ultramodern country of Japan.

For this extraordinary session Dr. D. D. Khedkar, Convener, Career Counselling Cell was sharing the dais under the chairmanship of Dr. H. S. Lunge, IQAC Coordinator. In the presidential address, it was assured to all the students that, college administration will not let our students deficient for anything related to building of career.

SEMINAR ON HEALTH AND WELLNESS, TOPIC - MENSTRUAL HYGIENE

NEED-POOR MENSTRUAL HYGIENE CAUSED BY LACK OF EDUCATION ON THE ISSUE undermines the educational opportunities, health and o

verall social status of the girls. As a result girls are kept from reaching their full potential.

VISION –To create a world in which every women and girl is empowered to manage her menstruation safely, hygienically, with confidence and without shame, where no woman or girl is limited by something as natural and normal as her period.

ACTIVITY-Education about menstruation changes everything. To highlight the importance of good menstrual hygiene management, Dr Anjali Bodade, Convener of **WOMEN EMPOWERMENT CELL** in Collaboration with Department of **CHEMISTRY** had arranged a Seminar on **MENSTRUAL HYGIENE** for the students of **PAYOSHNI** girls hostel on Sunday 30 September 2018 in the hostel hall. Girls must freely discuss about their problems with their friends /care taker. Girls shouldn't feel ashamed about getting menses, it's a natural phenomena. A team from Nagpur was called upon to introduce about their quality product **FEEL NEW**. Who guided the students and also distributed free samples. The activity took place in presence of nearly fifty girls and Varsha Deshmukh, Hostel Warden.

Chaudhari motivated the participants. Mr. Amol Gawande discussed about his seventeen years working experience in various Industries.

Some of the faculty members also participated in this Five Day Training Course on "Instrumental Techniques and their Practical Applications"

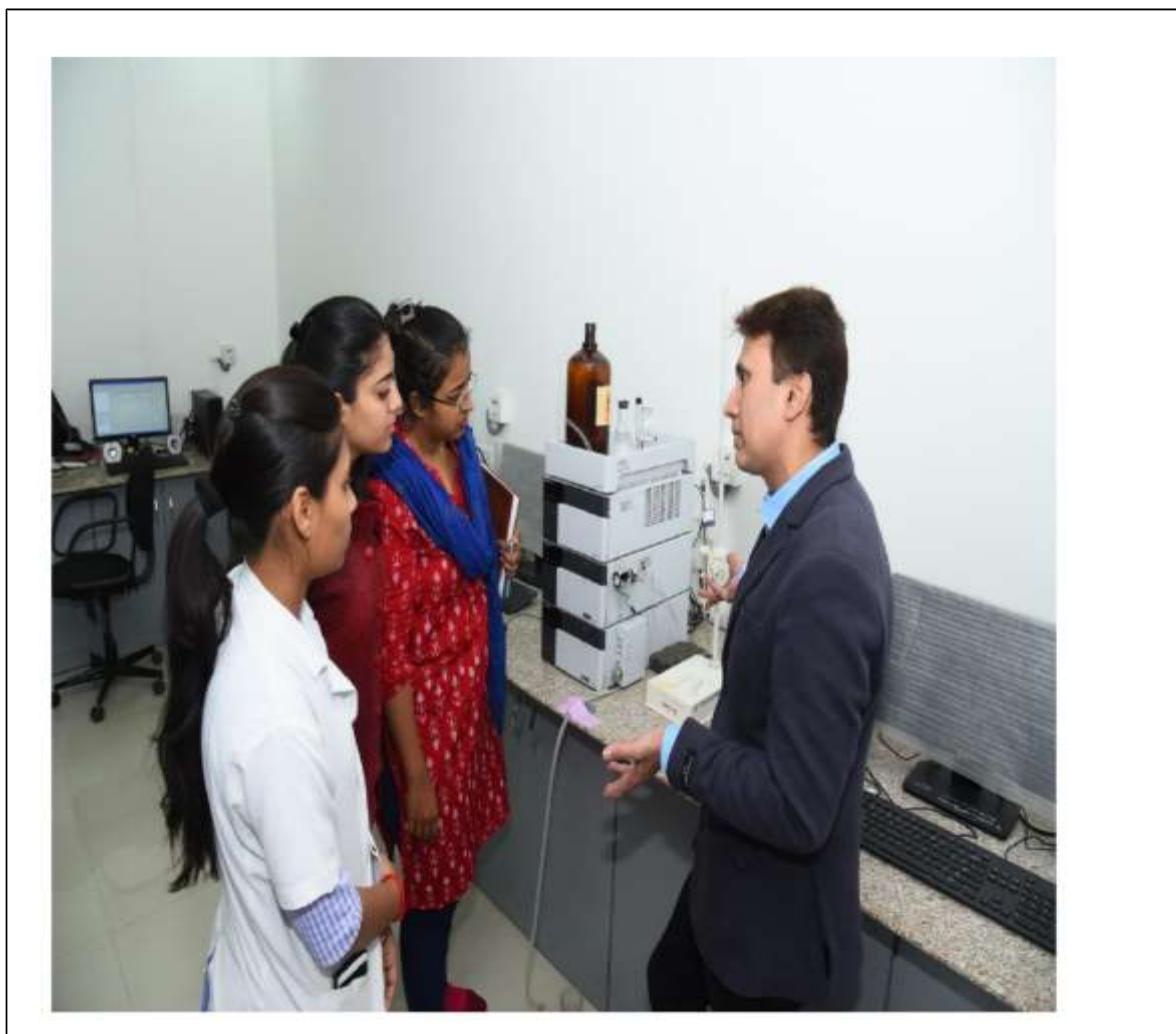

1st day of Training Programme (20/12/2019)

On 20th December 2019 Mr. Amol Gawande, Scientist, Peaks Analytical and Research Centre, Nagpur delivered Keynote speech on “Industrial Scope, Applications & Opportunities for Chemistry”. He delivered lecture “Instrumentation & Theory of HPLC” and then he provided hands on training of HPLC to all the participants in Instrumentation laboratory.

He provided information regarding following good operating practices

- Isocratic HPLC, Gradient HPLC, Chromatographic conditions, Industries work based on Chemistry.
- Reverse phase HPLC, Normal Phase HPLC,
- In Instrumental training of HPLC Mr. Amol Gawande provided
- Training regarding Column(stationary phase) and liquid (mobile phase).
- How to inject dissolved sample into the flow path of the mobile phase.
- How to detect analytes bands, to quantitate peaks generated.
- .All these points were covered by providing individual sample to each participants and performing their hands on training.

2ndDay of Training Programme (21/12/2019)

On 21st December 2019. Mr. Amol Gawande had delivered lecture on Gas Chromatography Theory and Instrumentation. He had provided hands on training on Gas Chromatography.

He had given the training of following points of G C instrumentation.

1. Stationary Phase of Gas Chromatography. Packed Column, Capillary Column of G C instrumentation.
2. Gas Chromatography method parameters, Calibration of G C, Column oven, Injector Reproducibility, Detector linearity.
3. Demonstration of G C of various samples along with their standard values.
4. Performance of individual G C practical of each participants to run various samples through G C.

3rd day of Training Programme (22/12/2019)

On 3rd day of Training programme Mr Amol Gawande had given hands on training to each participants on

1. Trouble shooting.
2. Calibration HPLC instrument.

He also emphasized on the importance of HPLC in the research of Chemistry, trouble shooting, calibration of instruments through theory as well as practical.

4th day of Training Programme (23/12/2019)

On 4th day of Training programme Mr Amol Gawande had given hands on training to each participants about IR, FTIR instrumentation. Participants had carried out the IR practical training of samples of research students.

1. Preparation of sample KBr pallet.
2. Performance of individual IR practical of each participants of various samples through IR.
3. Recording of IR spectra with interpretation of IR spectrum.

5th day of Training Programme (24/12/2019)

On 5th day of Training programme Mr Amol Gawande had given hands on training to each participants about UV –Visible and XRD instrumentation. Participants had carried out the practical training of samples for this instrumentation. In the final session examination was conducted on this Instrumentation Course.

1. UV-Visible practical performance of various samples.
2. XRD Practical demonstration and performance of Practical training to each participant.
3. Examination of thirty questions conducted on this practical instrumentation. All the participants got Grade A, B, C on the basis of mark scored in the examination. (A grade = more than 85%, B grade = more than 75%, C grade = more than 60%)

Valedictory function of training programme

The valedictory function was held on 24/12/2019 at 6 p.m.. The function was chaired by Dr H. S. Lunge, Co-ordinator, NAAC, Department of Statistics. Dr G. N. Chaudhari was the President of programme. Participants gave their feedback about the programme. The programme was concluded with the distribution of certificates.

About Course :

This course is designed to give you knowledge about eco-tourism and photography and help you build a career as tour guides, Nature guides and photographers. Anyone can take a snap, but not everyone can take a good picture. A proper foundation has to be laid, basic knowledge gained and correct techniques have to be learnt.

Come & join us for this basic course for enhancing your knowledge of wild life and the art of photography. Apart from classroom sessions, there will be practical shooting sessions, field visits to National parks and sanctuaries. Who knows? There may be a famous Nature guide and photographer hiding inside you, waiting to be discovered!

Objectives of the course :

- To create photography skill.
- To impart instructions on the basic concepts, evolution and scope of Eco-tourism and wildlife photography.
- To develop an appreciation for responsible and sustainable tourism.
- To awaken people to the importance of ecology, culture, history and economic development.
- To create ability for chalking out trekking programmes.
- To promote Nature and wild life photography.
- To increase awareness about conservation of Nature and wild life.
- To create a scientific attitude towards wild life.
- To arrange exhibition on wild life.
- To establish a link with national and international institutes.

Job prospects / Avenue :

- ❖ Eco-tourism and wildlife photographer.
- ❖ Electronic media, TV channel, etc.
- ❖ Wildlife photo-journalist.
- ❖ Resource person on conservation education.
- ❖ Jobs in forest department, national sanctuaries, zoological park, NGO's etc.
- ❖ Freelance photographer.
- ❖ Tour and Nature guides.
- ❖ Camping, trekking & adventure activity Manager.
- ❖ Guide and Naturalist at National parks and sanctuaries.

Nature Camp Report

Department of Zoology's COP- Eco-tourism & Wildlife Photography course had organized a Two days residential "Nature Camp cum Workshop" at Shahanur Interpretation Centre, Narnala Wildlife Sanctuary, Akot Division of Melghat Tiger Project on 20-21 February 2016. Fourty students of COC-EWP course were actively participated in the Nature Camp.

This visit was arranged as per their COC practical Syllabus. The main objective of this programme was to increase awareness about Adventure, eco-tourism, conservation of Nature & Wildlife and also to create scientific attitude among COC students.

During Nature Camp we had conducted the Nature trail, Narnala Fort visit, Adventure activities, technical sessions and demonstration on field photography for COC students.

First Day Activities (On 20 Feb 2016) :

- 11.00 am to 2.30 pm- Nature Trail from Shahanur Village to Paldhari Camp(8km.)
- 3.00 pm to 6.00 pm - Narnala Fort Visit
- 7.00 pm-8.30 pm- Technical session (02 Presentations)
- 8.30 pm -9.30 pm –Dinner
- 9.30 pm to 10.30 pm- Technical session (02 Presentations)

Second Day Activities (On 21 Feb 2016) :

- 6.30.00 am to 8.30 am- Bird Watching
- 8.30 pm to 9.30 am – Tea and Breakfast
- 9.30 am-1.30 pm- Adventure activities Demonstration
- 1.30 pm -2.30 pm – Lunch
- 2.30 to 4.00- Photography Demonstration
- 4.00 to 4.30- GPS & Compass Demonstration
- 4.30 to 5.00- Exit Meeting

Experts in various fields who guided & demonstrate the students:

Dr.G.A.Wagh, Mr.Alkesh Thakare, Mr.Susil Raut, Ku. Rutuja Kukade, Mr.Manish Dhakulkar, Mr.Saurabh Jawanjal and Mr. Prajawal Lonare.

Ball Badminton coaching Camp Report 2018-19

In Session 2018-19 Ball Badminton Women's before competition coaching camp of Sant Gadge Baba Amravati University was organized by the Department of Physical Education and Sports of our college. The trained team was going to participate in the inter-university competition. Dr. Sugandh Band, the director of physical education of the college, was appointed by the university to train the women's ball badminton team. Players from all the colleges coming from Amravati University, i.e. from various colleges in the entire five districts, were selected and participated in this training camp through a selection test. The training camp was inaugurated by the Principal of the College, Hon'ble Dr. Vijay Thackeray at the Ball Badminton Ground of the College. The training camp was conducted from 30-12-2018 to 07-01-2019. A total of 15 students were selected for the training camp. After the training, the team was to go to Krishna University Machhi La Putnam, Tamil Nadu to participate in the All India Inter-University Competition from January 9, 2019 to January 13, 2019. The training of the team starts regularly in both morning and evening sessions under the guidance of Dr. Sughan Band. In this training camp, all the players were gaining knowledge of physical ability as well as sports skills which would help them to win the next competition. The training camp was also visited by a number of dignitaries who excelled in the field of ball badminton and sports.

The competition was concluded on January 8, 2019 under the chairmanship of Hon'ble Principal. In the concluding program, all the students were honored with certificates of completion of the training camp and they were congratulated for their success in the next competition and for playing with sportsmanship.

Greetings from Canon India..!!

On behalf of Canon I would like to Thank you for providing us an opportunity to showcase our product & technology to your college students.

Recognizing and fostering the potential of individuals, Canon as the leader in digital imaging in India provides a unique platform to learn the latest techniques in photography. We take pride in encouraging photography amongst photo enthusiasts and also encourage people to discover the joys of photography through its association with various colleges & corporates in the country.

The idea is to spread the photography culture to familiarize individuals with Basic Photography Concepts and to introduce it as a hobby amongst them, and we'd love to have **Shri Shivaji Science College** on board with us this time.

On the above background, We would like to confirm the workshop for 25th September 2019.

Course outline:

- * Basic Photography
 - Camera Fundamentals
 - Tips and techniques on basic photography
 - Exposure Triangle (Aperture, Shutter and ISO)

- Creative use of Aperture, Shutter and ISO
- Tips on Composition

This workshop will be conducted by me and it will be **free of cost**. The session will last for 3 hours, which includes theory and Hands on.

For conducting these workshops, we would only be requiring a spacious room with a projector and screen from your side.

Thanks for your time and consideration.

Looking forward to meet you in person.

Regards,

Rajesh

As water is being and essential requirement for all the humans and animals. The surface water is very evident part of it as it is visibly available, but the groundwater which is beneath earth surface place equally important role in water conservation and to fulfilled demands of day to day life requirements. This Certificate course on groundwater exploration (Hydrogeology), in towards making students aware about introductory requirement to understand ground water exploration and its related problems. This course will cover bulidingblock contains to understand groundwater and its integral relationship with geology.

3) Course Objectives:

- 1) To understand various components and interrelationship of hydrological cycle.
- 2) To understand Occurrences and distribution of groundwater.
- 3) To understand interrelationship between groundwater and surface water.
- 4) To understand Theories governing groundwater.
- 5) To apply knowledge of different rock types to understand their water holding capacities.
- 6) Understanding groundwater provinces of India.
- 7) To understand groundwater conditions in various parts of Maharashtra.

4) Instructional Strategies: Animation Videos**5) Instructional Material:** Instructor's videos supported with slides and graphics**6) Summary:** Flow-charts and text form**7) Evaluation Strategies:** Summative auto-graded tests and assignments for E-Tutor feedbacks**8) Detailed time-wise course session plan:**

REPORT

Herbal medicine grows all around us!

We find medicinal plants in our backyards, gardens, nearby forests, old farm fields and even growing right up through the cracks in city sidewalks. But whether we know all about them or whether we are able to identify them easily is something debatable. Maybe the plant in our backyard is one that is highly medicinal one. These are some common things that we all know as a part of general knowledge. Along with that the second thing that comes to our mind is that plants are the only novel creatures on the earth that help to boost our immunity in a scenario like the present one that of Covid-19 pandemic. Medicinal plants have been proved to be excellent immunity boosters, and this fact has been enhancing the curiosity of people about medicinal plants over the years.

In this course we learn as to what constitutes a medicinal herb, how to identify one, and how different plants and plant parts are used as medicines. We will also learn about the type of soil that is suitable for growing herbs, the quantity and quality of water needed and other useful information. Detailed description of medicinal plants is provided along with their uses and methods of preparing herbal medicines. And lastly we do focus on the most important thing that is the career opportunities in the field of Herbal Medicines and other Herbal Products.

Department of Botany, Shri Shivaji Science College, Amravati., Our approach is learner-oriented and the learner is an active participant in the teaching-learning process. Most of the instructions are imparted through online and distance mode.

1 - This online course mainly focuses on Self Learning Material (SLM) and they are up-gradation by eminent students.

2 - Text information plays a vital role in online education. Video lectures, Animated Videos, Quizzes, Assignments that have been prepared by the department for the enhancement of understanding the course material given to the student.

3- The video lectures are uploaded on the college website and YouTube for student access.

4- Delivery of classroom-like lectures will also be available in the student portal.

The duration of this course is 1 month (4 week) and day wise lectures will be uploaded on college website and You Tube also. E-certificates will be issued to participants whose score in full course (Quiz + Assignment + Final Exam Quiz) is above 40%.

Aim and Objectives:

1. To make the students aware of the novel properties of medicinal plants.
2. To make the students expert in identifying the medicinal plants available in their locality, irrespective of the field to which he/she belongs.
3. To learn to identify the most common and useful medicinal plants.
4. To build confidence of working with highly beneficial plants.
5. To make the people aware of the power of the ancient traditional folk medicines.
6. To understand the proper method of harvesting the plants while retaining their medicinal properties.
7. To conserve the medicinal plants for future use.
8. To assure students that the field of medicinal plants can be their career option.
9. To make the students aware of career opportunities through the dissemination of the correct knowledge of the medicinal plants.
10. To make the students understand the right use of medicinal plants for their health and wellbeing.

Online course on “ Medicinal Plants: Traditional Uses and Career Opportunities” from 16 August 2021 to 18 September 2021.

This Medicinal Plants course was open for all UG and PG students and also teachers ,we have received enormous response. This course has been more than 500 participants have registered with very enthusiastically. This remarkable response for course which has boosted our morals and encouraged us to organize similar events in future also.

**ONLINE VALUE BASED COURSE ON
"CHEMICAL HANDLING AND LABORATORY
SAFETY"
FOR UG AND PG STUDENTS OF CHEMISTRY**

Duration : 20TH AUGUST TO – 6TH SEPTEMBER 2021

Open to: UG and PG students offering Chemistry

Online meeting platform: Zoom / Google Classroom
Registration fee: Nil
Last date for applying: 19TH August 2021

About Shri Shivaji Education Society:

The Shri Shivaji Education Society, Amravati was founded by the great visionary & the first Union Agricultural Minister of Govt. of India late Dr. Panjabrao alias Bhausaheb Deshmukh.

Shri Shivaji Education Society, Amravati is a premier educational institution of Central India with branches in all the districts of Vidarbha in Maharashtra. It has established more than 300 educational institutions which include schools, colleges, hostels, a hospital and other teaching and technical institutions.

In these institutions different courses are offered like Agriculture, Arts, Commerce, Bio-technology, Computers Science, Education, Physical education, Engineering, Horticulture, Information Technology, Law, Medicine, Micro-biology, Nursing, Forensic Science and the pure Sciences. It also runs a Polytechnic Institute for boys and girls at Amravati.

The Shri Shivaji Education Society has received different honours from State & Central government -

- Dr. BabasahebAmbedkar'Dalit Mitra' Award (1993-94) by the Govt. of Maharashtra.
- Gadge Maharaj Memorial Award (1999-2000)
- Govt. of Maharashtra's "Best Administered Society" in the state with a cash award of Rs. 1 lakh (5 September, 2000)
- Leadership Award of Excellence in Education (Feb.11, 2011)
- Maharashtra Nirmata Award (May 2011)

About the Institution:

Shri Shivaji Science College, Amravati was established in 1969 by "Shri Shivaji Education Society, Amravati".

Our aim is to provide quality education and to equip our students with analytical insights, intellectual maturity, strength of purpose and willingness to work hard conforming to ethical values. To attract and develop talented and committed human resource and provide an environment conducive to innovation, creativity, team-spirit and entrepreneurial leadership for the overall growth of the Country.

Ours is the first College in SGB Amravati University area to go for Accreditation by NAAC with "A Grade" with a CGPA 3.13 (3Cycle)

Vision

To develop the institute as a centre of higher learning ever abreast with the expanding horizon of knowledge in the field of science and to facilitate transformation of students into good human beings, responsible citizen and competent professionals.

Mission

- To provide quality education, equip them with analytical insights, intellectual maturity, strength of purpose and willingness to work hard conforming to ethical values.
- To be bridge between the rural-urban divide, taking the benefits of education to the poor and the marginalized, aiming at their empowerment.
- To ensure access to and equity in higher educational opportunity to all deserving and meritorious students with a preferential option for the poor and marginalized, irrespective of cast and creed.
- To attract and develop talented and committed human resource and provide an environment conducive to innovation, creativity, team-spirit and entrepreneurial leadership.

Salient Features

- Sprawling campus with lush green garden / lawns.
- Central instrumentation facility (CIC) for researchers.
- Spacious and separate UG, PG and research labs with state of the art facilities.
- Rich central library with independent study rooms, fully atomized with NRC.
- State of the Art Computer laboratories with internet & Wifi connectivity
- Highly qualified and dedicated Staff.
- B.Sc. with 14 combinations, B.C.A. and M.Sc. in Chemistry, Botany, Bioinformatics, Computer Software, Physics, Zoology, Environmental Science.
- Two B.VoC. Courses (Forensic Sciences & Data Analytics).
- Five COC courses and one Innovative Course.
- Ph.D. facility in Chemistry, Botany, Geology, Mathematics, Physics, Microbiology, Statistics and Zoology.
- Best practices such as: Academic Audit, Feedback Mechanism, Cross Stock verification, Guardian Teacher Scheme, Continuous Evaluation and Dress Code.

Specific objectives of the CHLS-2021 :

- To impart the required knowledge of various most commonly used chemicals and apparatus.
- To impart necessary skills to handle hazardous chemicals.
- Theoretical knowledge of instruments used in laboratory.
- Practical knowledge of instruments used in laboratory.
- To operate and to maintain the laboratory equipments.
- Instrumentation, Calibration and their practical applications.
- How to handle the emergency while working in laboratory

Expected outcome of CHLS-2021 :

- Familiar with the handling laboratory apparatus.
- Understand the nature and handling of chemicals.
- Familiar to various solvents used in laboratory and industry
- Precaution to be taken during handling of hazardous chemicals.
- How to carry out the organic synthesis.
- Confidence to handle instruments such as- pH meter, potentiometer, colorimeter, spectrophotometer etc.

Who can apply :

- UG and PG students offering chemistry and belonging to Shri Shivaji Science College, Amravati are eligible to apply for this workshop.

Guidelines:

1. No registration fees
2. Last date for Registration : 19th August 2021
3. Platform : ZOOM / Google Classroom
4. Meeting link will be shared only to the selected participants
5. E- Certificate will be provided to all the registered participants who attend all the sessions.
6. Registration through Google form.

2. All the applicants must have a personal E-mail id, personal desktop/laptop/smart phone with uninterrupted internet facility to participate in this online course.

SHRI SHIVAJI SCIENCE COLLEGE, AMRAVATI

Department of Chemistry

Online Value Based Course On

“Chemical Handling and Laboratory Safety for UG and PG Students”

Duration- 20 August – 6 September 2021

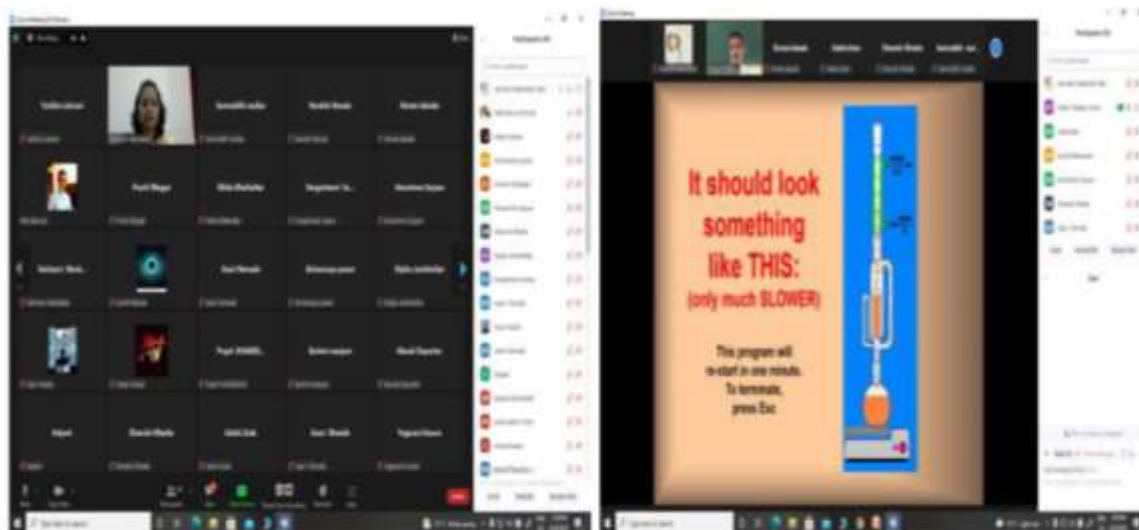

Number of Participants – 170

Venue – Online Platform (Zoom, Google classroom)

The Department of Chemistry, Shri Shivaji Science College Amravati, has organized online Course on “Chemical Handling & Laboratory Safety (CHLS-2021)” from 20/08/2021 to 06/09/2021. Dr Harshali G. Wankhade, Asst. Professor, Department of Chemistry took initiative as a course co-ordinator to effectively carry out the sessions of this course. In this course total 170 students of UG & PG offering Chemistry from Shri Shivaji Science College Amravati were participated.

All the faculty members of Department of Chemistry, Shri Shivaji Science College, Amravati, has delivered the talk on handling various chemicals and instruments while performing practicals in laboratory. This course proved to be very useful for students to get theoretical and practical knowledge of various chemicals, glasswares and instruments used in laboratory. This value based course definitely enhanced the student’s skill of performing chemistry practicals safely and with accuracy. This course was successfully organized by the Department of Chemistry.

The course was inaugurated by Prof. G. N. Chaudhari, Principal & Head, Department of Chemistry the Chief Guest of the function. All faculty members and participants were present in the inaugural function. Prof. G. N. Chaudhari motivated the participants.

SCHEDULE

Week 1

Session	Time	Date	Topic	Name of the Speaker
12:30 – 1:00 PM		20 th August 2021	Inauguration	
Session I	1:00 – 1:30 PM		Introduction to laboratory safety	R. D. Bankar
1:30 – 2:00 PM			Discussion	
2:00 – 2:30 PM		21 st August 2021	Quiz I	
Session I	12:30 – 1:15 PM		Introduction & Handling of glassware Precaution to be taken while performing titrations	Dr. N. A. Kalambe
Session II	1:15 – 2:00 PM			
2:00 – 2:30 PM			Quiz II	
12:00 PM		22 nd August 2021	Assignment I	

Week 2

Session	Time	Date	Topic	Name of the Speaker
Session I	12:30 – 1:15 PM	23 rd August 2021	Solution preparation	Dr. H. G. Wankhade
Session II	1:15 – 2:00 PM		Handling of electronic balance	
2:00 – 2:30 PM			Quiz III	
Session I	12:30 – 1:15 PM	24 th August	Handling of benzene and its derivatives	Dr. V. R. Kinikar

Session II	1:15 – 2:00 PM	2021	Refractometry	Dr. A. S. Burghate
2:00 – 2:30 PM			Quiz IV	
Session I	12:30 – 1:15 PM	25 th August 2021	Introduction to solvents	Dr. N. R. Thakare
Session II	1:15 – 2:00 PM		Handling of solvents	
2:00 – 2:30 PM		Quiz V		
Session I	12:30 – 1:15 PM	26 th August 2021	Introduction to toxic metals used in laboratory	Dr. N. H. Bansod
Session II	1:15 – 2:00 PM		Handling of toxic metals in laboratory	
2:00 – 2:30 PM		Quiz VI		
Session I	12:30 – 1:15 PM	27 th August 2021	Introduction to acid and bases	Dr. P. R. Mandlik
Session II	1:15 – 2:00 PM		Corrosive properties of acid	
			Handling of strong acid	
2:00 – 2:30 PM		Quiz VII		
Session I	12:30 – 1:15 PM	28 th August 2021	Handling of bromine in laboratory	Dr. A. B. Bodade
Session II	1:15 – 2:00 PM		Handling of phenol and its derivatives in laboratory	Dr. S. P. Ingoe
2:00 – 2:30 PM		Quiz VIII		
12:00 PM		29 th August 2021	Assignment II	

Week 3

Session	Time	Date	Topic	Name of the Speaker
Session I	12:30 – 1:15 PM	30 th August 2021	Introduction to electrodes & Salt bridge	Dr. Y. S. Thakare
Session II	1:15 – 2:00 PM		Handling and calibration of pH meter	
2:00 – 2:30 PM		Quiz IX		
Session I	12:30 – 1:15 PM	31 st August 2021	Handling of gaseous evolution during synthesis	Dr. V. B. Khobragade
Session II	1:15 – 2:00 PM		Introduction to reagents	R. D. Bankar
2:00 – 2:30 PM		Quiz X		
Session I	12:30 – 1:15 PM	1 st September 2021	Corrosive properties of bases	Dr. P. R. Mandlik
Session II	1:15 – 2:00 PM		Handling of strong bases	
2:00 – 2:30 PM		Quiz XI		
Session I	12:30 – 1:15 PM	2 nd September 2021	Handling and calibration of potentiometer meter	Dr. S. P. Ingole
Session II	1:15 – 2:00 PM		Precaution to taken during organic synthesis & use of Microscale technique in practical	Dr. S. A. Wadhal
2:00 – 2:30 PM		Quiz XII		

Session I	12:30 – 1:15 PM	3 rd September 2021	Handling and calibration of colorimeter	Dr. P. R. Padole
Session II	1:15 – 2:00 PM		Handling and calibration of spectrophotometer	Dr. S. A. Wadhwal
2:00 – 2:30 PM			Quiz XIII	
Session I	12:30 – 1:15 PM	4 th September 2021	Solvent extraction & Separation technique	Dr. V. B. Khobragade
Session II	1:15 – 2:00 PM		Study of physico-chemical parameter-Viscometer & Stalagnometer	Dr. S. K. Rithe
2:00 – 2:30 PM			Quiz XIV	
12:00 PM		5 th September 2021	Final Examination	
2:00 PM		6 th September 2021	Valedictory

Activity 2 (Session 20-21)

MENSTRUAL HYGIENE DAY

Date -21 May 2021

Beneficiaries – All COC, U.G., P.G. girl students. (video posted on groups)

Every year Career oriented course in cosmetology under the Department of Chemistry celebrates **Menstrual Hygiene Day** – a global event aimed at promoting the importance of safe menstrual hygiene management to create awareness amongst the freshers.

The global theme for the Menstrual Hygiene Day 2021 was- **“We need to step up action and investment in menstrual health and hygiene now!”** Covid -19 pandemic has demonstrated that menstrual hygiene is a multifaceted challenge in India. Lack of access to period products was just at the tip of the iceberg when it came to the impact of the coronavirus crisis on period health. Due to pandemic the past year has made it more difficult than ever to safely manage their periods. Sanitary pads were not included in the governments list of essential items, a number of barriers to accessing sanitary products

Awareness about different home -made and ready made sanitary products available, maintenance of hygiene during periods and the myths about menstrual hygiene was created by circulating a ppt on **Menstrual Hygiene** to the students.

Future Plans:

- Exposing students to the entrepreneurship in latest flourishing cosmetic industry.
- To promote research in advanced cosmetic sector.
- To provide expertise in cosmetic skill which will have more opening in service, industries and self employment sector.

Skill Based Education under National Skill Qualification Framework

2020-2021

Copy of circular /brochure /report of the event:

B.Voc. Forensic Science Annual Activity report 2020-21

This Annual report is presenting the activities of first-year and second-year students from B.Voc Forensic science in 2020-2021. Many students of the 1st year of B.Voc Forensic Science participated in multiple competitions held by various organizations. A national-level article writing competition, in which various topics from the forensic domain were provided and their knowledge was tested based on their articles. In the webinar conducted on Opportunities for Women Entrepreneur in the field of beauty, cosmetics and patenting various career options and knowledge regarding the market was provided. A quiz conducted by IFS on the topic of Forensic Investigation was a great way to evaluate the basic knowledge of students. Webinars like Ethical Hacking and Cyber-Security, conducted by HACK-N-SLASH provided great and in-depth knowledge regarding cyber-crimes and working in the real world. Quiz Competitions like on the topic Internet Technology is a good way to test the basic knowledge of the daily use items. Quiz on topics of Indian Science, test our knowledge related to fundamentals of basic science. Crash Course on Handling of Forensic Document in Corporates, provided students a great deal of information on document examination and standard procedure used in laboratory work. A guest talk on serious crime investigation, provided by Robert Green provided them an idea regarding the working of forensic science in western countries. Webinar on the topic of Forensic Toxicology provided the knowledge reading core concepts like visceral examination, poisoning, and report preparation. Competitions like poster presentations or debates provided the students with an extra bit of knowledge and developed their communication skills, and helped them understand their competition with other students. Webinar series like on the topic Role of Media in Crime Investigation, helped the students to understand another dimension to crime investigation, how social media or news media can change the course of the investigation, and what our role as a citizen is. Programs like Financial at Digital Literacy gave the students knowledge regarding entrepreneurship and financial independence. Workshops on the topics of forensic science like Intellectual Rights or Cyber Crime Investigation and Cyber Forensic provide additional knowledge to students other than their syllabus, this helped them in the understanding of real case scenarios.

Students of the 2nd year of B.Voc Forensic Science also showed active participation in various competitions and courses throughout the year. In the Gurugram police, cyber security internship students got to know about the pieces of evidence and Legal procedural acts related to cyber-crime. Forensic psychology workshop helped them to understand the mental illness and competency of an individual to stand for trials. Certification courses in forensic science and forensic medicine made them aware of the medico-legal procedure, evidence, and their significance in crime investigation. The crash courses related

to the medico-legal autopsy and injuries cleared the idea of mode and manner of death. The workshop regarding instrumental technique helped students to know about analytical principles, procedures, and their significance in forensic investigation. Article writing competitions made them understand the formal writing format and content of research articles. Document handling crash courses guided them to handle documents as evidence and maintain a chain of custody. Chemistry practical workshop gave them knowledge regarding chemical handling and practical procedure with specific principles. Conferences of biology, toxicology, and other disciplines helped them to understand the disciplines of forensic sciences and their working manner. Webinar of crime scene investigation made them understand the procedure to identify, detect and investigate physical evidence, modus operandi, and motive behind it. Webinars and workshops related to the law helped them to understand the legal procedures, illegal activity, and punishment for breaking rules and regulations. Webinar on the topic of the role of media in crime investigation, forensic toxicology, Forensic odontology, Incinerated remains, recent cyber-attacks, Bloodstain pattern analysis, trace evidence helped them to make their ideas clear with the work of forensic experts, evidence, maintenance, and importance of evidence in the judicial system. Poster competitions motivated them to portray their ideas with paintings to aware society of forensic science. One of the students had participated in Asia World Model United Nations and presented the global issue of human trafficking and people smuggling. Quiz competitions made assessments of their theoretical knowledge and motivated them to read about forensic science.

Report

Soft skill based Two Day online Workshop on **“Role of E- Vehicle in Environment Management”** was organized by the Dept. of Environmental Science for U.G. and P.G. students on 24th Aug to 25th Aug 2021. Mr. Romit Jadhav, Director Jadhav Solar & Automotive Pvt. Ltd. Amravati guided students about role of e- vehicle about in environment management, e-vehicle application and future job opportunity in sector of e-vehicle. Mr. Romit Jadhav sir also gives live demonstration of assembling and disassembling of different e-vehicle in workshop. Total 39 students of U.G and P.G. were participated in workshop.

Groundwater Expolration

2020-2021

Copy of circular /brochure /report of the event:

To,
Principal,
Shri Shivaji Science College,
Amravati.

Subject: Application for permission to organizing Adorn course on Groundwater Exploration.

Respected Sir,

The department of Geology requires to organizing online Adorn course on Groundwater Exploration for one month. We will be organizing this course from 17/8/2021 to 16/8/2021.

We need your permission for the above Adorn course. Registration for this course will be done through Google form.

Thanking you.

Yours sincerely

Dr. M. M. Deshmukh
Head & Asst. Professor

1) Course Title: Groundwater Exploration (Hydrogeology)

2) Course description:

As water is being an essential requirement for all the humans and animals. The surface water is very evident part of it as it is visibly available, but the groundwater which is beneath earth surface plays an equally important role in water conservation and to fulfill demands of day to day life requirements. This Certificate course on groundwater exploration (Hydrogeology), is towards making students aware about introductory requirements to understand groundwater exploration and its related problems. This course will cover building blocks to understand groundwater and its integral relationship with geology.

3) Course Objectives:

- 1) To understand various components and interrelationship of hydrological cycle.
- 2) To understand Occurrences and distribution of groundwater.
- 3) To understand interrelationship between groundwater and surface water.
- 4) To understand Theories governing groundwater.
- 5) To apply knowledge of different rock types to understand their water holding capacities.
- 6) Understanding groundwater provinces of India.
- 7) To understand groundwater conditions in various parts of Maharashtra.

4) Instructional Strategies: Animation Videos

5) Instructional Material: Instructor's videos supported with slides and graphics

6) Summary: Flow-charts and text form

7) Evaluation Strategies: Summative auto-graded tests and assignments for E-Tutor feedbacks.

8) Duration of course: One month

9) Credits: 3

10) Components: Course Outcomes (COs):

- 1) To understand occurrence and distribution of water beneath earth surface.
- 2) To understand interrelationship of groundwater with surface water and their interplay in environmental cycle.
- 3) Application of theory's governing groundwater movement in understanding occurrence of ground water.
- 4) To understand various rocks and their water bearing hydrological properties for primary application in occurrence of ground water.
- 5) To understand Ground water provinces of India and to develop critical thinking on how groundwater conditions vary in India due to various groundwater provinces.
- 6) Primary identification of various water bearing aquifers.

Last Date of Registration:- 16 August 2021

1 Month Course Starts from 17 August 2021

UNDERSTANDING PROGRAMME AND COURSE**Course:**

5 hours of teaching in a week

3.20 min hours theory

1.40 min hours practical

3 credit course

Course Outcomes(COs) :

1. To understand occurrence and distribution of water beneath earth surface.
2. To understand interrelationship of groundwater with surface water and their interplay in environmental cycle.
3. Application of theory's governing groundwater movement in understanding occurrence of ground water.
4. To understand various rocks and their water bearing hydrological properties for primary application in occurrence of ground water.
5. To understand Ground water providences of India and to develop critical thinking on how groundwater conditions vary in India due to various groundwater providences.
6. Primary identification of various water bearing aquifers.
7. Course Outlines:
8. Groundwater Hydrology and its relation to other sciences.
9. Hydrological Cycle
10. Occurrence and distribution of groundwater
11. Water table and water table maps, Piezometric surface
12. Influent and affluent seepages and springs.
13. Theory of groundwater flow
14. Aquifers and their types
15. Hydrological properties of rocks
16. Occurrence of groundwater in different rock types
17. Lithological, Stratigraphic and Structural control of groundwater occurrence.
18. Groundwater provenances of India
19. Groundwater conditions in different parts of Maharashtra.

Course Schedule :

Online classes will be offered

Department of Geology

Value Added Course 2020-21

Summary Report

Department of Geology conducted value-added "Certificate course on groundwater exploration" (Hydrogeology) in session 2020-21 dated 17th August 2021 to 6th September 2021 for duration of 20 days and total of 64 students participated in this course. In course was in towards making students aware about introductory requirement to understand ground water exploration and its related problems. This course covered building-block contains to understand groundwater and its integral relationship with geology. After completion of course students are able to understand groundwater conditions in various lithological units and expected behaviour groundwater in varied litho-stratigraphic unit in relation to various geological structure. Students learned about importance of groundwater in changing societies and why sustainable use of groundwater is necessary. Course also enriched students on groundwater conditions in various parts of Maharashtra and surrounding area.

Course Out-Come: -

- 1) Students were able to understand and analyze various components and interrelationship of hydrological cycle.
- 2) Understanding of Occurrences and distribution of groundwater and better Understand about interrelationship between groundwater and surface water.
- 3) Learning, understanding of theories governing groundwater and its application in understanding flow of water beneath Earth surface and gained applicable knowledge of different rock types to understand their water holding capacities.
- 4) Broad Understanding of groundwater provinces of India and better understand of groundwater conditions in various parts of Maharashtra.

2) Shri S. K. Paunikar, Asst. Prof. Dept. of Geology, Shri Shivaji Science College, Amravati

Syllabus:

Theory:

1. I) Groundwater Hydrology and its relation to other sciences.
II) Hydrogeological cycle
III) Occurrence and distribution of groundwater
2. I) Water table and water table maps, piezometric surface.
II) Influent and Affluent seepage and springs.
III) Theory of groundwater flow
IV) Aquifers and their types.
3. Hydrologic properties of rocks and their definition and methods of determination. (Porosity, permeability, Specific yield, Specific retention, etc)

4. I) Occurrence of groundwater in different rock types: Igneous, sedimentary and metamorphic rock.
- II) Lithological, stratigraphic and structural control of groundwater occurrence.
- III) Groundwater provinces of India.
- IV) Groundwater conditions in different parts of Maharashtra.
- Practical:**
- I) Study of Topographic survey sheets.
- II) Plotting of groundwater provinces of India

Sports Skills and Fitness programs

With colleges and stadiums completely closed in the 2020-2020 season, a big question for players and coaches as well as the director of physical education was how to practice their game at home. Everyone knew that resting for a long time was not right for the players. But in this corona epidemic, it was very important for the students to get instructions on what to do and to be guided to practice at home. With this in mind, the Department of Physical Education and Sports has decided to organize a Sports Skills and Fitness program this year with the objective of providing online coaching sessions to students.

The course was organized by the department from 7th December to 18th December 2020. A total of 92 students from the college took part in the course. Through this course, the students were given complete guidance on how to do physical exercises in a straightforward and easy manner as well as how to practice their favorite sport at home. Mr. Sudhakar Sir Kerala, the coach of the Indian junior hockey team, as well as the coach of the Indian football junior team, and Mr. Dheeraj Mishra Sir, the football coach of the Directorate of Sports and Youth Services, Maharashtra, Pune, have been at home during this time. The video obtained by these two experts was uploaded on the college's Shri Shivaji Science Sports YouTube channel and made available to the students so that they can enjoy it. In addition to these two experts, if the students have any problems, a live session was also conducted in the program.

Apart from this, Dr. Sugandh Bund, Head of Physical Education Department of the College and Dr. Rupali Ingole also conducted some sessions on how to maintain good physical fitness and mental health. In which the students were able to maintain their physical health and mental health by facing the current difficult situation without being bored at home. As a result of organizing this course, the students got the guidance of international standard trainers free of cost while sitting at home. Many students mentioned that this sport skill and fitness program was definitely useful for all the students.

1 . Course Description :

For keeping stress at bay and to enable the students to tolerate the potential stress associated with life, **Shri. Shivaji Science College Amravati** organizes a physical exercise and yoga session. It increases attention span, improves memory and sharpens the focus of the students. It is also prolific for stress reduction, and emotional wellness.

Mostly college students have more difficulties during their academic paths. The biggest challenge to student success is time management, balancing priorities, health conditions, social problems, relationships, sleep difficulties and depression. In fact, yoga means not only doing exercise, but helps to awareness expansion, improves intelligence and natural ability is improved.

A piece of yoga practice every day will definitely make student community gain more physical strength and get rid of all physical difficulties and diseases. Mental strength gained in yoga helps students to fight against inconsistencies with increasing self-confidence which looks as more powerful. Yoga can empower in the following four ways like Physical Health Empowerment, Emotional Empowerment, Mental Health Empowerment and Spiritual Empowerment. These can be achieved by yoga practices like Yogasana, Pranayama and Meditation. This helps students to begin again their sense of joy, spirit combination and communal kinship.

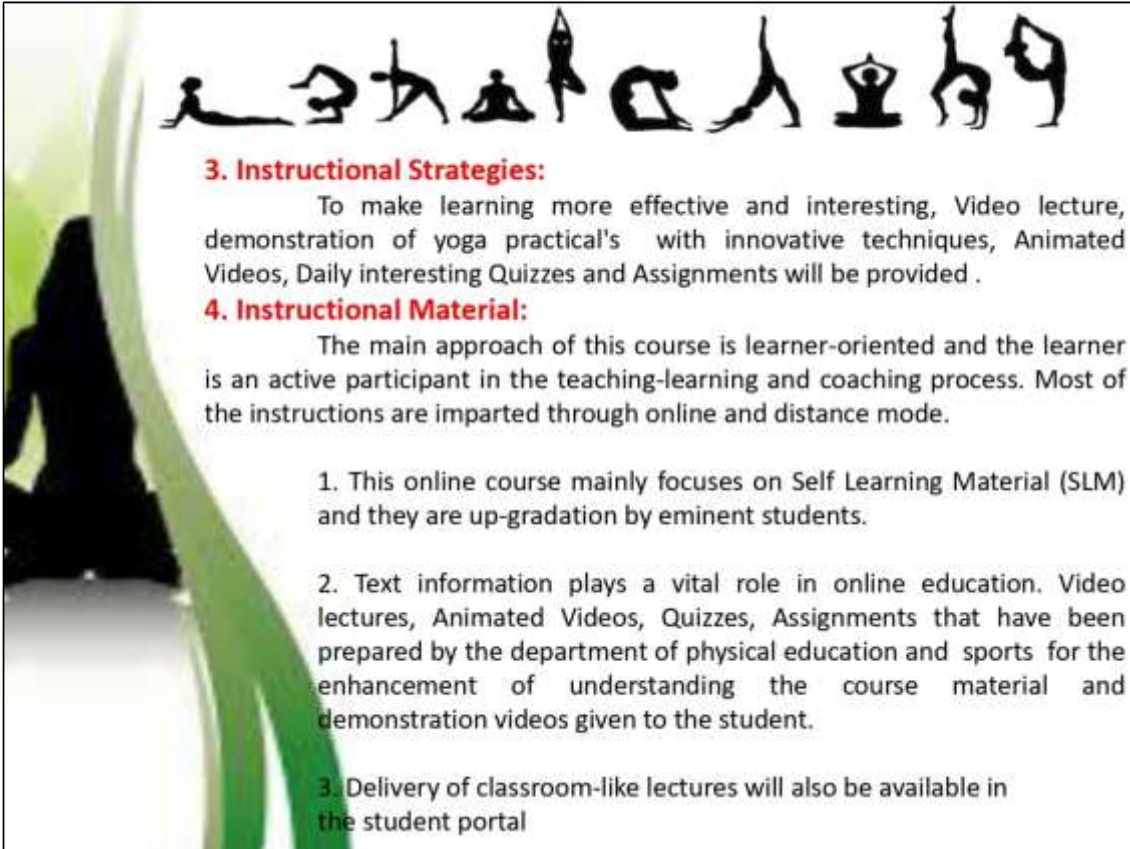

2. Course Objectives :

Yoga education helps in self-discipline and self-control, leading to immense amount of awareness, concentration and higher level of consciousness. Briefly the aims and objectives of Yoga education are:

- 1) To enable the student to have good health.

Mr. Sudhakar Sir Kerala, the coach of the Indian junior hockey team, as well as the coach of the Indian football junior team, and Mr. Dheeraj Mishra Sir, the football coach of the Directorate of Sports and Youth Services, Maharashtra, Pune, have been at home during this time. The video obtained by these two experts was uploaded on the college's Shri Shivaji Science Sports YouTube channel and made available to the students so that they can enjoy it. In addition to these two experts, if the students have any problems, a live session was also conducted in the program.

Apart from this, Dr. Sugandh Bund, Head of Physical Education Department of the College and Dr. Rupali Ingole also conducted some sessions on how to maintain good physical fitness and mental health. In which the students were able to maintain their physical health and mental health by facing the current difficult situation without being bored at home. As a result of organizing this course, the students got the guidance of international standard trainers free of cost while sitting at home. Many students mentioned that this sport skill and fitness program was definitely useful for all the students.

Yoga Awareness Quiz Competition and Organization of International Yoga Day

2020-2021

Copy of circular /brochure /report of the event:

Department of Physical Education and Sports Organizing International Yoga Day Session 2020-21

International Yoga Day was organized online this year as well as last year by the Department of Physical Education and Sports in colleges. The event was jointly organized by District Sports Office, Amravati and Shri Shivaji Science Mahavidyalaya, Amravati. . In which the teachers, non-teaching staff and students of the college also registered their participation online and completed all the yoga at home as per the guidance and registered their participation in the yoga practice. Of course, the International Yoga Day was justified by lectures on the unique importance of yoga during this Koruna period and its benefits and the consequent better physical and mental health.

To celebrate the International Yoga Day, various asanas and pranayamas were filmed by the college yoga expert Mr. Jadhav Sir and uploaded on the YouTube channel of the Department of Physical Education and Sports i.e. Shivaji Science Sports. Through which everyone was inspired to do yoga in the right way. Not only that, a different Marathi language video of all the yoga protocols published by Morarji Desai Yoga Institute by the Department of Physical Education and Sports was also made available to all the college members.

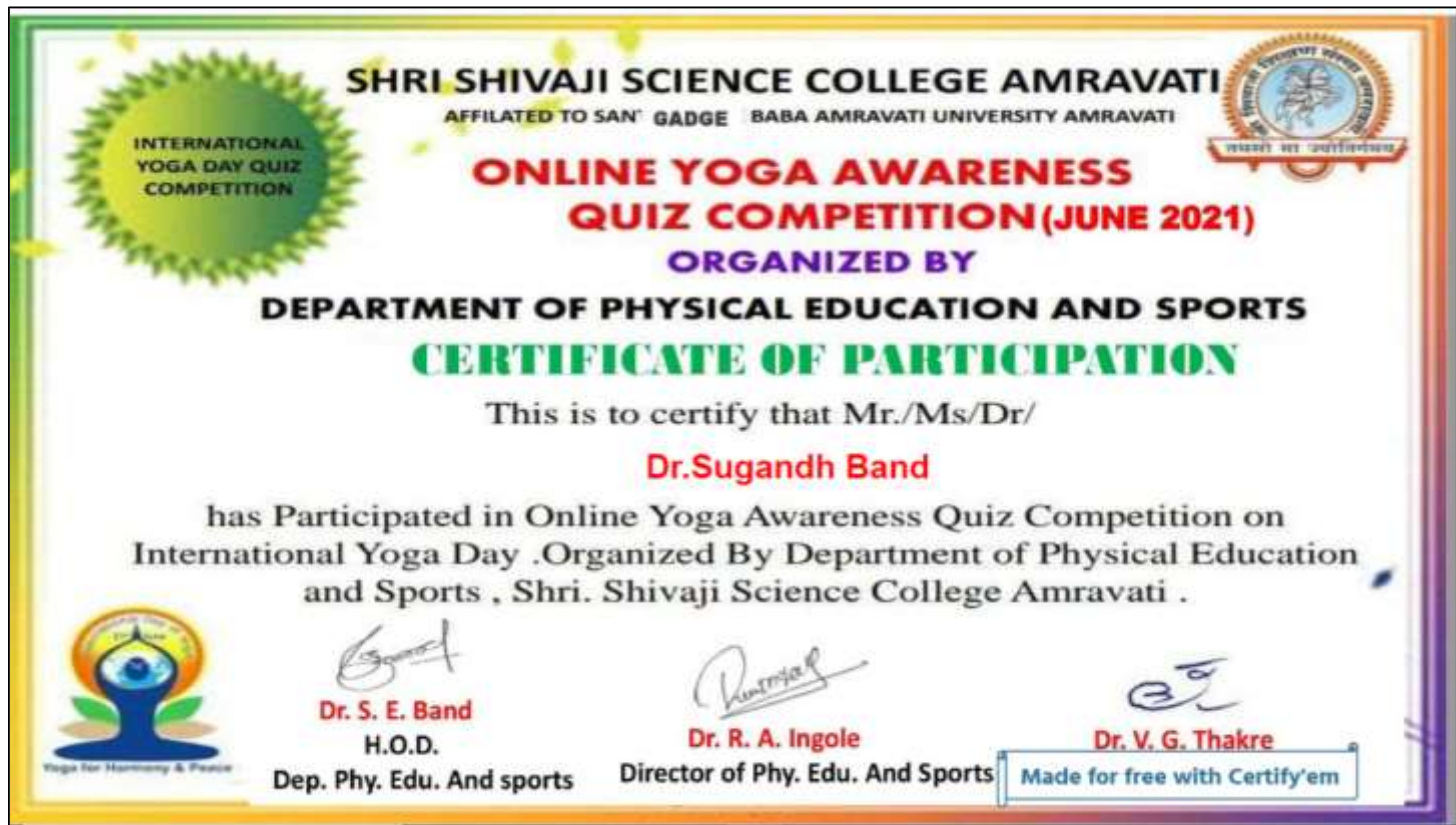

In addition, in case of any problem online, the department prepared a hard copy of the complete information about the entire asanas, prayers and pranayama procedures in a PDF file and provided it to all the members of the college. Through this every element of the college completed the yoga practice.

The Yoga Awareness Quiz competition was organized nationally by the Department of Physical Education and Sports in celebration of International Yoga Day. In which 636 participants from all over India registered their participation and all the students who passed the quiz were also given e-certificates immediately. Our principal Dr.V.G Thakre wished all the members of the college a happy International Yoga Day and instructed them on how yoga is important for good health and how to maintain good health by doing yoga daily.

Department of Physical Education and Sports Organization of August 29, National Sports Day

Like every year, this year also the National Sports Day was organized on 29th August by the Department of Physical Education and Sports. This day is celebrated all over India with great enthusiasm in the memory of Major Dhyanchand, an international player who is considered as the magician of hockey in the field of sports. This National Sports Day is celebrated every year in colleges through various activities. This year also this National Sports Day was celebrated online by the Department of Physical Education and Sports. Through which the National Sports Awareness Quiz Competition was organized by the department. In this, 1121 participants from all over India responded well and registered their participation in this quiz. Certificates were also immediately issued to all participants who passed.

The main purpose of taking this quiz was to provide the students with the right information about the various day-to-day mathematical developments in the field of sports and all the students should read the correct information in the field of sports out of curiosity. The quiz included questions from various sports, including the recent Tokyo Olympics and India's place in the medal table.

Athletes' appreciation ceremony is held in the college on the day of National Sports Day and all the students who have won medals or excelled in sports are honored. Although it was not possible to do so due to the Corona epidemic this year, the Sports Department commended all the students who received medals last year and excelled in sports by contacting them by telephone. He was also guided by the department to regularize the practice and reach a higher level by wishing him well for his future endeavors in the field of sports. While talking to the students, their parents were also contacted by the department and they were also appreciated for the performance of the child.

Health Care Course

(Biomedical Science)

Health of the people is important to aware the society about it. It is characterized as anatomic, physiologic, and psychological integrity to perform work. Health Care System (HCS) infrastructure includes services, facilities, institutions/establishments and organizations. They provide individuals, families and communities with primitive, protective, preventive, diagnostic, curative and rehabilitative measures and services. There are different HCSs all over the world, which are strongly influenced by nation's history, traditions, socio-cultural, economic, political and other factors. In the first decade of the 21st century, the conceptualization of health as an ability opened the door for self-assessments to become the main indicators to judge the performance of efforts aimed at improving human health and lifestyle. This Certificate course on healthcare (Biomedical Science), is towards making students aware about introductory requirement to understand and to create the opportunity for every person to feel healthy, even in the presence of multiple chronic diseases, or a terminal condition and for the re-examination of determinants of health, away from the traditional approach that focuses on the reduction of the prevalence of diseases. Applied health sciences endeavor to better understand and improve human health through applications in areas. This course will cover building block contains to understand healthcare and its integral relationship with zoology.

Course Objectives:

- To understand basic healthcare.
- To understand various healthcare services.
- To understand interrelationship between public health, global health and Environmental health.
- To understand types of healthcare and maintenance of health.
- To acquire knowledge of health related sectors.
- To understand self-care strategies in India.
- To understand occupational safety, health information and techniques.

Course outline : course outlines

- Healthcare and its relation to other sciences.
- Role and organization of health care systems.
- Distinguish national health care systems based on sources of funding.
- Scope of activities of health organizations on different levels.
- Classify health service organizations depend on various criteria.
- Three generations of reforms in health system.
- Main goals of national health systems.
- Main objectives of national health systems.
- Common problems of health care system.
- New challenges of health care system.
- Hospital care
- Public health care services improve lifestyle.

Client Success

Who We Are

- We help faculty and students more effectively utilize their Maple license.
- Our mission is to ensure all users (including students, instructors and researchers) get full value from Maple, and ultimately come to love it as much as we do!

What We Do

We offer free services that end-users can take advantage of at any time:

<p>Bootcamps</p> <p>These short sessions help instructors learn Maple, as well as help them teach it to their students!</p>	<p>Hands-on Workshops</p> <p>Topics include: How to Use Maple; Using Maple to Teach Undergrad STEM Courses; Creating Interactive Maple Applications; How to Program in Maple.</p>	<p>Seminars</p> <p>Custom presentations on the different packages and features in Maple.</p>
<p>Resource & Content Development</p> <p>We can guide you to the right supporting resources for your needs, and in some cases can customize them for you!</p>	<p>Answer Usage Questions</p> <p>We are here to answer your questions - if our team doesn't have the answer, we will direct you to the person or group that does.</p>	<p>Contact Us Today</p> <p>Don't hesitate to email us at any time: deepakg@binarysemantics.com +91 98670 08532</p>

Dear Sir,

Greetings from Binary semantics Ltd!!!...

COVID-19 pandemic has made a global impact in the past weeks and continues to impact most of the sectors, with the education sector being one of the most affected ones. Students are losing valuable time in their education due to the lockdown imposed. But we would like to collaborate with your institute and provide online learning opportunities to your students who can access from their homes, thereby making good use of this lockdown period for Mathematics understanding and skill enhancement. Kindly find attached herewith the Maple Software services which you can avail in association with Maple Soft.

Respected Bhatkar Sir,

Shri Shivaji Science College

Greetings from Binary Semantics Ltd.!

Hope this mail finds you in pink of your health.

*As per our recent conversation regarding the **Upgrade of your Existing Maple Software**, We would be glad to support you with regards to that. We will be sending you the quotations on the Upgrade of your existing Maple, Also as discussed we will be conducting a FDP for your College Faculties, where we will be training all the faculties on various features of Maple Software.*

Once we receive the Update on the purchase, we request you to Provide us suitable day and time for us to come in your college.

We are keen to explore an opportunity to work with your esteemed College to provide the world's most powerful Simulation and Mathematical tool - **Maple** which will help to analyze, explore, visualize and solve problems.

Please check the attachment for the details on Maple Software.

Maple Software:

- Maple is a mathematical Modelling software which combines with world's most powerful math engine.
- 5000 + mathematical functions cover every aspects of math's and Physics.
- Easy Drag and drop Software for Generation of Question papers, Assignments, Research, Plots, diagrams and converting in Latex.
- It also provides the platform to directly export the maple file into other formats like HTML, PDF, Latex, Rich Text Format and many others.
- Used by 9000+ institute worldwide
- It provides a platform to deal with pure mathematical topics like Linear Algebra, P.D.E,O.D.E, Optimization, Number theory ,Physics, Statistics and many others with just drag and drop feature.
- It has a unique code generation feature, which help its users to convert maple code into 11 other languages like C++, Java, C#, Visual Basics, Python, R and etc.
- 2D & 3D plotting and animation , with the customization feature.
- Symbolic, numeric and hybrid computations algorithms.
- Perpetual license.
- Student / teacher help center.

Computational Programming using SCILAB "Experimental simulations, design of conceptual experiments".

2019-2020

Copy of circular /brochure /report of the event.

Online Certificate Course on "Physics with SCILAB"

Introduction and Background:

SCILAB is a scientific software package for numerical computations providing a powerful computing environment for scientific applications. It was developed in 1990 by researchers from INRIA (French National Institute for Research in Computer Science and Control) and ENPC (National School of Bridges and Roads). It is now maintained and developed by SCILAB Consortium joined to Digiteo Foundation from 2008. The current version is 6.1.0 released on Tue, 25 Feb 2020.

It is an open source, cross-platform numerical computational software and also a high-level, numerically oriented programming language. Due to the open source nature of the software, some user contributions (define new data types and operations) have been integrated into the main program. Using SCILAB many numerical problems may be expressed in a reduced number of code lines, as compared to similar solutions using traditional languages, such as FORTRAN, C, or C++. This allows users to rapidly construct models for a range of mathematical problems.

SCILAB also includes a free package called **Xcos** for modeling and simulation of explicit and implicit dynamical systems, including both continuous and discrete sub-systems.

SCILAB is fully compatible with Linux, Mac OS X, and Windows operating systems.

This course is designed for introducing the Physics students to SCILAB and its effective use in solving the problems and simulating the concepts in Physics.

Who should take this course:

Any student of physics or mathematics (UG/PG) wishing to discover SCILAB software, its environment and its capabilities.

Prerequisites:

Be able to use computers and know college physics and mathematics concepts.

Duration of the Course:**THREE WEEKS (20th July to 08th August 2020)**

Five/Six video lectures will be released and two assignments (50 Marks each) will be given in one week. The lectures can be viewed at any time during that week and assignments shall have to be submitted before given deadline. The questions and discussions facility will be available through Google Classroom.

After successful completion of the course a certificate will be issued by Shri Shivaji Science College, Amravati depending on the performance.

What you will learn in this course:

- Introduction to SCILAB environment
- SCILAB datatypes, variables and constants
- Matrix operation in SCILAB
- Plotting math functions in SCILAB
- Changing axes properties in SCILAB plots
- Plotting Bar graphs in SCILAB
- Putting Latex formatted text and math symbols in SCILAB plots
- Solving linear algebraic equations in SCILAB
- Introduction to Xcos: The SCILAB simulator
- Making simulations for Physical systems using Xcos
- Introduction to SCILAB functions
- Writing your own functions in SCILAB
- Solving ordinary differential equations
- Calculating Fourier coefficients and Plotting Fourier Series
- Conditional branching
- Creating codes to solve the problems in Physics

Google Workshop on AI and ML Report

- On dated **22 Feb. 2020**, **Miss. Ramya Kappagantu**, Explore ML Facilitator, VNIT, Nagpur has conducted workshop on "**Google AI| Explore ML, Beginner Track**", In all 160 students registered for the workshop from the different colleges and 120 student actually participated for the same. Students appreciated the workshop in person.

About this event

- Explore Machine Learning (ML) is a Google-sponsored program for students to get started with Machine Learning. The curriculum offers 3 tracks of machine learning content (Beginner, Intermediate, Advanced) and relies on university student facilitators to train other students. **Main motive of Explore ML is to acquire knowledge on Machine Learning as you progress from Beginner to Advanced.**
- Students need to register for the workshop through the link provided and the agenda for the event was as under
 1. Introduction to ML.
 2. ML vs Rule Based.
 3. Idea to implementation.
 4. History and Types of ML.
 5. Neural Networks.
 6. Bias in Neural Networks.
 7. Uses and Limitations of Neural Networks.
 8. Relating to real life applications where ML is mostly used.

List of programs conducted and the number of students enrolled for each of the events.

Summary Quiz Competition

National Science Day 2021 Celebration

Online Quiz Competition on

“Internet Technology: Oxygen for Education System in Pandemic Situation”

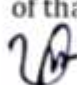

The theme for National Science Day this year is **“Future for STI (Science, Technology and Innovations): Impact on Education, Skill and Work”**. By considering this theme, our title for quiz competition is much appropriate, because now a day's whole world is facing problems due to COVID-19 Pandemic. As a academics we recognize that, Education System suffers a lot in this pandemic situation. The Internet Technology is providing very strong support in order to continue the teaching learning process.

On the Eve of National Science Day-2021(NSD-2021) we organized an online quiz competition titled as above. We encouraged by huge response of student from our college. Total **295** students were registered to Online Quiz competition. Participants not only registered in large number but also actively participated with count **231**.

But actually, what encouraged us a lot is result and feedback of students. Out of 232 students **212** students qualified for the certificate criteria. We thankful to the National Science Day Committee of our college to given an opportunity to get such huge success in the event.

Outcomes:

- Students gets basic idea about internet while preparing for this Competition.
- From the feedback of student's, we understood that they get the knowledge also.
- Students can easily and efficiently make use of Internet by understanding very basic as well as advance terminologies that we putted by making use of MCQ's of that level.

Report of Webinar
on
"Abroad Education, Awareness and Opportunities"

After graduation many students aspire to study abroad but students can face many difficulties such as choosing the right course and right institution at abroad. They are not familiar with various scholarships available for education at abroad. Therefore, to get the knowledge of all these a Webinar is organized by Department of Computer Science, Shri Shivaji Science College, Amravati for UG Final Year Students of all departments of Shri Shivaji Science College, Amravati on the following schedule and the topic:

Topic: "Abroad Education, Awareness and Opportunities"

Date: Saturday, May 08, 2021.

Resource person: Mr. Ashwin Alsi & Ms. Gauri Kale, Founder and Co-director, Proficient Test Prep, Amravati.

Time: 12:00 PM - 1:30 PM IST

For this Webinar, a registration link using Google Form was created. The link was circulated among final year students of all departments. Total 160 students from various groups of B.Sc., B.C.A, B.Voc. and M.Sc. are registered for webinar.

A Report on
National Workshop on Use of Virtual Laboratory in Teaching & Learning

Jointly organised by

Department of Physics , Shri Shivaji Science College, Amravati
(A Nodal Centre for V- Lab of Amrita University)
 &
 Department of Physics
 Shri Shivaji Science & Arts College, Chikhali

Workshop on Use of the Virtual Laboratory in Teaching and Learning
 (09th – 10th August 2021)

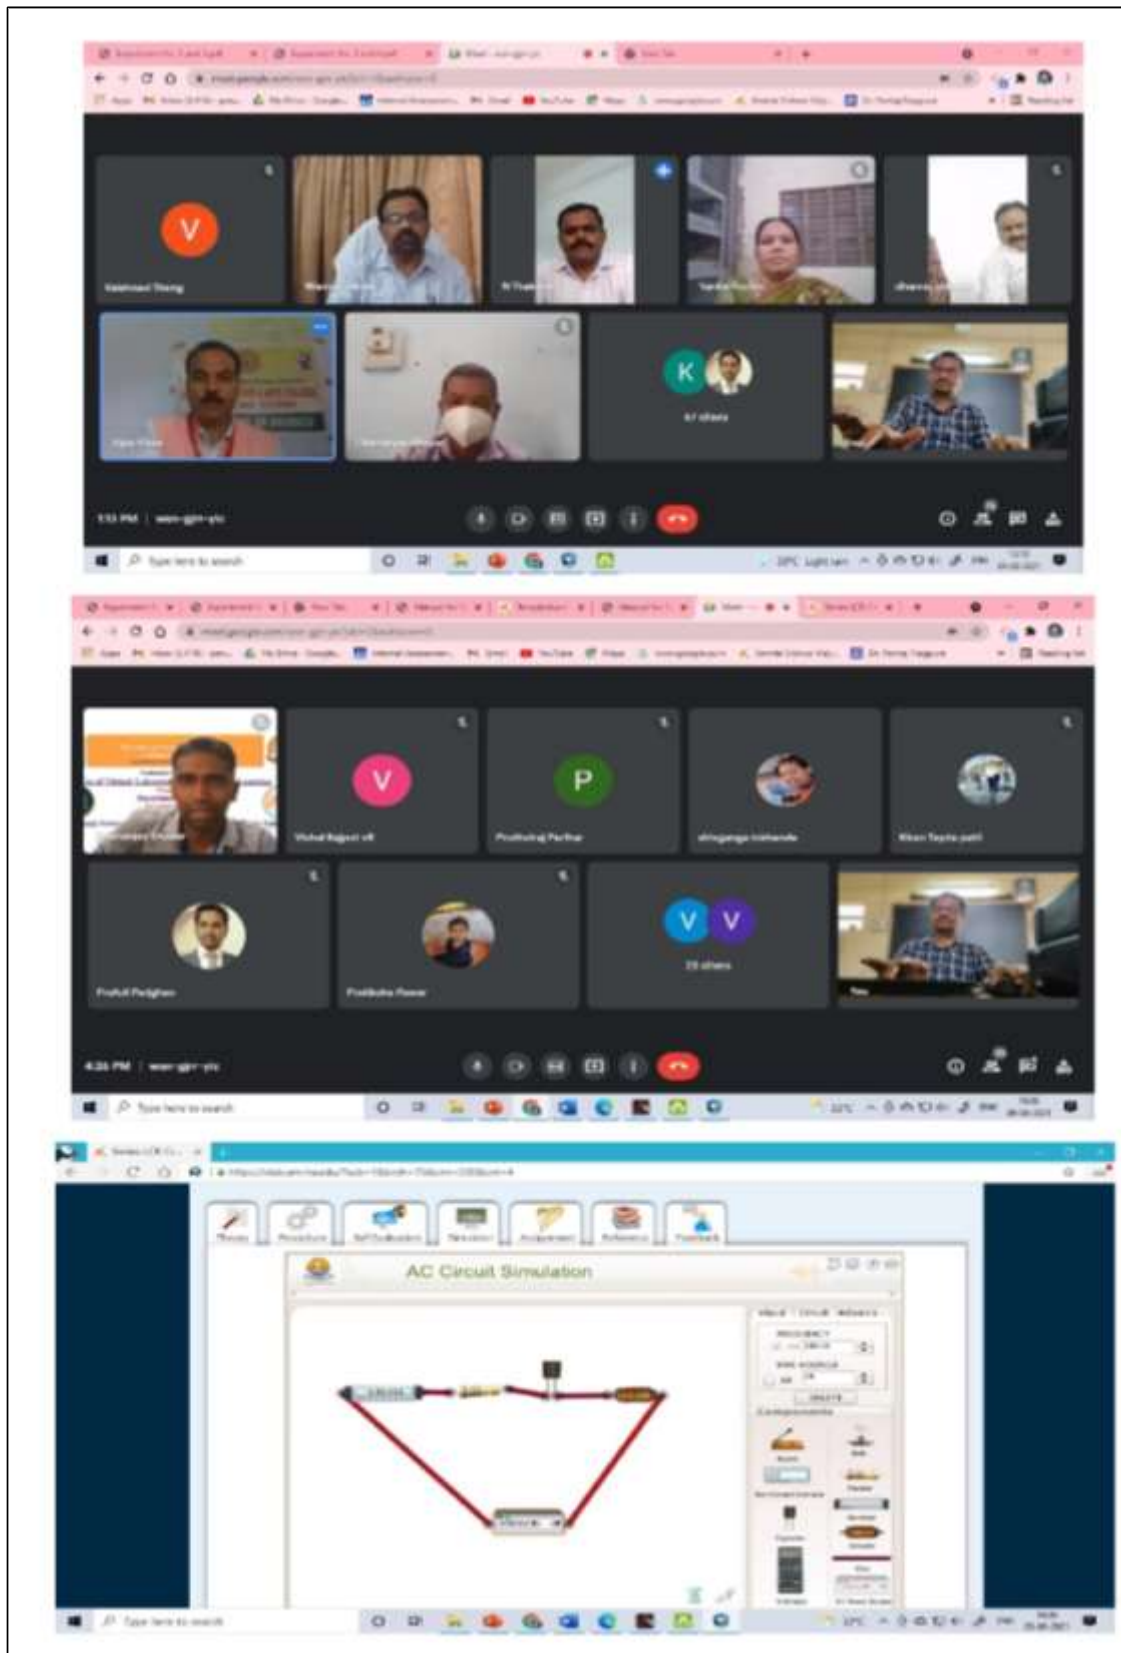

In view of the current scenario of COVID pandemic, Department of Physics, Shri Shivaji Science College, Amravati organized **Workshop on Use of the Virtual Laboratory in Teaching and Learning for teachers and students of Physics** in collaboration with Shri Shivaji Science and Arts College, Chikhali.

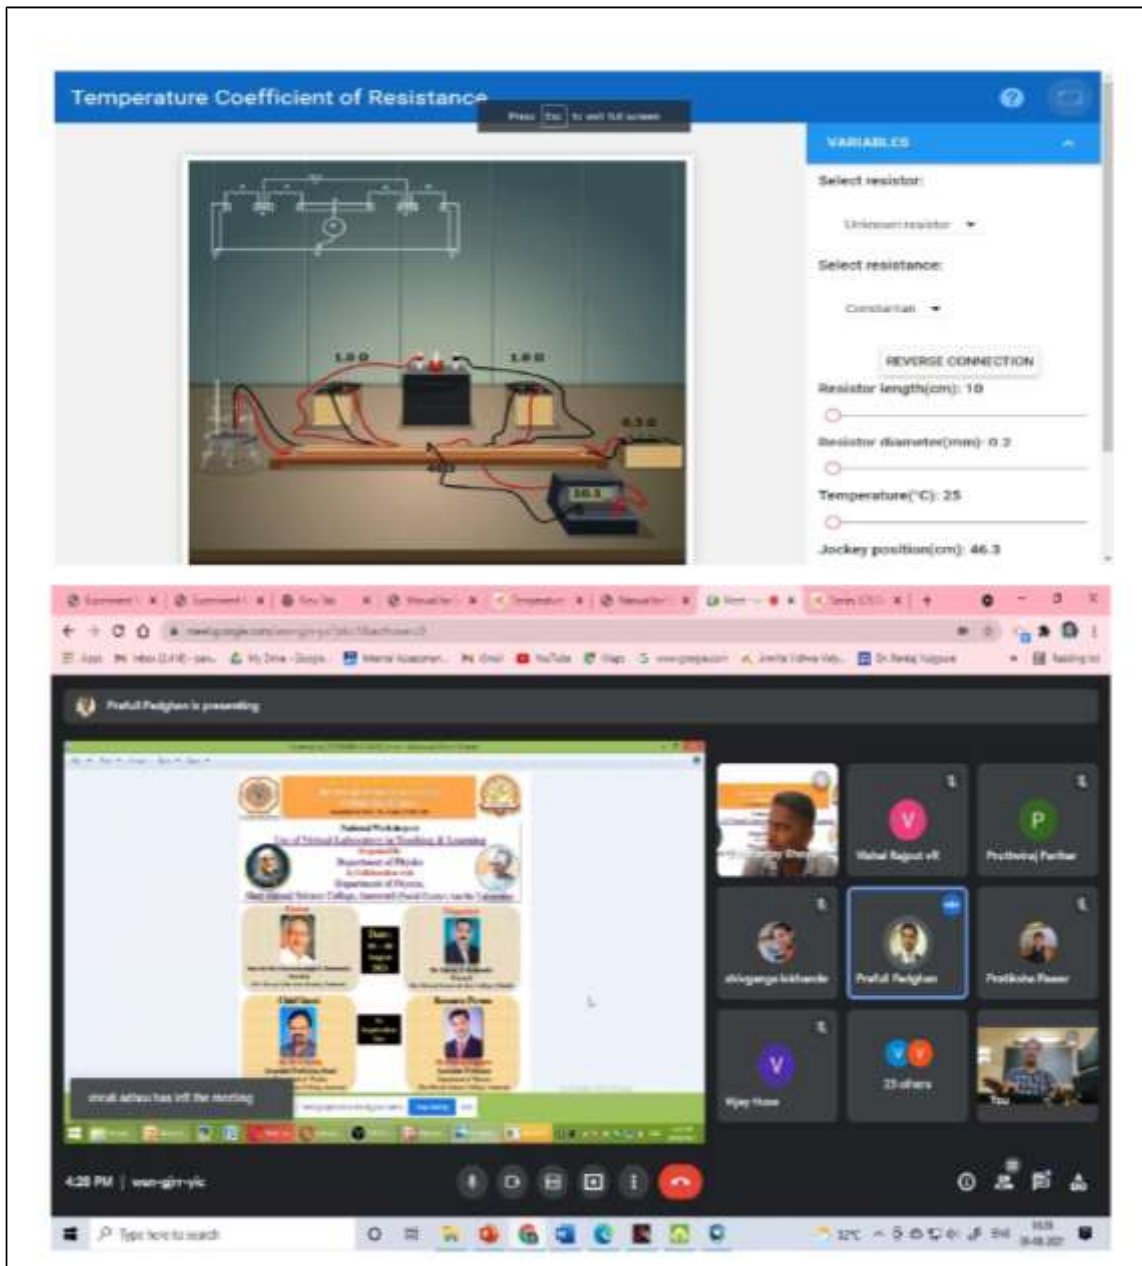

Since due to restrictions of pandemic the students cannot attend the practical sessions in the laboratory. Conducting the experiments in the laboratory is not possible until the colleges will open for the students. Hence this workshop is organised to make aware the students of UG and PG and faculty of physics about the various Virtual Laboratories available on the Internet such as Amrita Virtual Laboratory, Virtual Laboratories of Indian Institute of Technology, Mumbai/Roorkee/Kharagpur/Kanpur, etc. In this workshop Dr. P.A. Nagpure, Associate Professor and Nodal Co-ordinator of Amrita Virtual Laboratory demonstrated many experiments of physics at UG and PG level. The workshop was conducted online on the Google Meet Platform.

In this workshop 598 students and 20 teachers from various colleges were participated.

The workshop was inaugurated by Dr. O.S. Deshmukh, Principal, Shri Shivaji Science and Arts College, Chikhali. He emphasized importance of the Virtual Laboratories in the current scenario. Dr. W.S. Barde, HOD of Physics, Shri Shivaji Science College, Amravati preside over the function. Dr. N.B. Deshmukh, HOD of Physics, Shri Shivaji Science and Arts College, Chikhali conducted this Inaugural Program.
